

The New Jersey Office of Clean Energy, as part of its New Jersey Clean Energy Program Web site, maintains a list of contractors meeting the qualifications to provide the New Jersey Home Performance with ENERGY STAR Program energy audit, please see, <http://www.njcleanenergy.com/residential/programs/home-performance-energy-star/home-performance-energy-star-r>. The contractors listed below are included on this list. These contractors have indicated an interest in performing the Home Performance energy audit for customers located within the Rockland Electric Company service territory. The list below is provided for your convenience. It is not an exclusive list of eligible contractors and you may select any contractor qualified through the NJ Clean Energy Program to perform the Home Performance with Energy Star energy audit. Please note that Rockland Electric Company makes no warranty or guaranty regarding the performance of the contractors included on the list below, or any other contractors qualified through the NJ Clean Energy Program.
