MINIMUM MONTHLY CHARGE:

\$7.40 plus the demand charge.

DETERMINATION OF DEMAND:

For demands in excess of 5 kW the monthly billing demand in kW shall be either the greatest connected load or the greatest 15-minute integrated demand, determined as follows:

- (a) Billing demand may be on a connected load basis when
- (1) a demand meter would not reduce the billing demand, or
 - (2) the installation is temporary, or
 - (3) the device has a large instantaneous or highly fluctuating demand.
- (b) Billing shall be on a demand meter basis in all other cases and shall be billed at not less than 90% of the kVA demand. The billing demand for the billing months of October through May inclusive shall not be less than 70% of the highest metered demand for the preceding billing months of June through September inclusive.

Temporary Reduction in Demand: If, as a result of fire, riot, strike, governmental interference, or act of God, a customer is unable to operate his plant, in part or in full, then after 30 days' written notice and requests, and thereafter for not more than three (3) consecutive months, the billing demand will be (a) 50% of the average billing demand for the preceding six months, or (b) the actual monthly demand, whichever is greater. At the end of said period, or at such prior time as normal operation is resumed, the billing demand shall be determined in the usual way, and the Company shall not again be requested to make a similar reduction in billing demand until the expiration of twelve (12) months thereafter.

General: Where the customer's load is highly fluctuating and instantaneous, requiring additional transformer capacity, the billing demand shall be equal to the rated transformer capacity required to supply the load.

TERMS OF PAYMENT:

Bills are due when rendered. If bill is not paid within fifteen days from date rendered, service may be disconnected after suitable written notice.

TERM:

- (a) Secondary service is terminable at any time after one year unless a longer period is required under a line extension agreement.
- (b) Primary service for demands up to and including 3,000 kW: The agreement for service shall be terminable at any time after one year upon ninety days written notice.
- (c) Primary service for demands in excess of 3,000 kW: The agreement for service shall provide for an initial term of five (5) years, to continue thereafter for five-year periods until and unless terminated by either party by giving notice in writing to the other party not less than ninety (90) days prior to the termination of the initial term or any subsequent renewal period.

A customer's demand shall be deemed to be in excess of 3,000 kW if the actual demand of the customer shall exceed 3,000 kW for any six monthly billing periods in any twelve (12) month period.

With respect to primary service under (b) or (c), the Company reserves the right to require a longer initial term where special construction is required to furnish the service.

SPECIAL PROVISIONS:

A. SHORT TERM SECONDARY SERVICE

When short term service is requested, the Company reserves the right to require a deposit of the estimated bill for the period service is desired. The minimum charge for such short term service shall be an amount equal to six times the minimum monthly charge, payable in advance. When construction is necessary, the cost of installation and removal of all equipment, less salvage value, shall be borne by the customer, and a sufficient amount to cover these charges shall be paid in advance. A part of a month shall be considered a full month for computing all charges hereunder.

SPECIAL PROVISIONS: (Continued)

B. SPACE HEATING

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of 2.358 ¢/kWh during the billing months of October through May and 3.652 ¢/kWh during the summer billing months. When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of \$26.96 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (3), (4), (5), (6), and (7) of RATE – SEVEN PART – MONTHLY.

C. AUXILIARY OR STANDBY SERVICE

Auxiliary or standby service will not be supplied under this service classification.

Any customer who operates or receives electric service from a qualifying facility and who requires auxiliary or standby service shall be eligible to take such service under Service Classification No. 7 of this Schedule. The term "qualifying facility" shall mean a generating facility that meets the qualifying facility requirements established by the Federal Energy Regulatory Commission's rules (18 CFR Part 292) implementing the Public Utility Regulatory Policies Act of 1978.

Customers taking service under this Service Classification shall not operate their generating equipment in parallel or synchronism with the Company's service, except as specifically authorized by the Company for the minimum time required by the customer to disconnect auxiliary generating equipment from the regular Company supply following an interruption of the company's service or during an equipment test. A customer having another installed source of energy may, however, segregate any portion of customer's total requirements so that such portion shall be served exclusively with the Company's service.
