

## GENERAL INFORMATION

### No. 13 IDENTIFICATION OF EMPLOYEES:

Company employees or agents authorized to enter upon its customers' premises are provided with photo identification cards. Customers are advised not to admit to their premises anyone claiming to represent the Company unless he is wearing the proper photo identification card.

### No. 14 COMPANY PROPERTY:

The customer shall exercise reasonable diligence in protecting the Company's property on his premises, and may be liable to the Company in case of loss or damage caused by his negligence or that of his employees.

The customer shall not disconnect, change connections, make connections or otherwise interfere with Company's meters or other property or permit same to be done by other than the Company's authorized employees.

All wiring, meters, etc., installed at the Company's expense shall remain its property and the Company may remove the same when service is terminated.

### No. 15 EXTENSION OF LINES AND FACILITIES:

#### (1) Definitions

For the purpose of General Information Section Nos. 15, 15A and 15B only, the following words and terms shall have the following meanings:

- (a) Applicant for An Extension means a person that has applied to the appropriate regulated entity, as defined at N.J.A.C. 14:3-1 for construction of an extension, as defined at N.J.A.C. 14:3-8.2.
- (b) Area Not Designated for Growth means an area that is not a designated growth area as defined herein.
- (c) Center Designation or Designated Center means a center that has been officially recognized as such by the State Planning Commission in accordance with its rules at N.J.A.C. 5:85 or in the Pinelands Area, a center recognized as such pursuant to a valid Memorandum of Agreement between the New Jersey Pinelands Commission and the New Jersey State Planning Commission.

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(1) Definitions (Continued)

- (d) Cost means, with respect to the cost of construction of an extension, the site specific costs calculated based on unitized costs for materials and labor (including both internal and external labor) employed in the design, purchase, construction, and/or installation of the extension, including overhead directly attributable to the work, as well as overrides or loading factors such as those for back-up personnel for mapping, records, clerical, supervision or general office functions. For extensions in an Area Not Designated for Growth, the unitized costs shall be based on the Company's most recent costs for materials and labor. For extensions in a Designated Growth Area, the unitized costs shall be those set forth in Appendix A to General Information Section 15A. .
- (e) Customer means the person identified in the account records of the Company as the person responsible for payment of the bill. A customer may or may not be the end user, as defined below.
- (f) Designated Growth Area means an area depicted on the New Jersey State Planning Commission State Plan Policy Map as:
1. Planning Area 1 (Metropolitan Planning Area, or PA-1);
  2. Planning Area 2 (Suburban Planning Area, or PA-2);
  3. A designated center;
  4. An area identified for growth as a result of either an initial or advanced petition for plan endorsement that has been approved by the State Planning Commission pursuant to N.J.A.C. 5:85-7;
  5. A smart growth area and planning area designated in a master plan adopted by the New Jersey Meadowlands Commission pursuant to subsection (l) of section 6 of N.J.S.A. 13:17-6; or
  6. A Pinelands Regional Growth Area, Pinelands Village or Pinelands Town, as designated in the Comprehensive Management Plan prepared and adopted by the Pinelands Commission pursuant to section 7 of the Pinelands Protection Act, N.J.S.A. 13:18A-8.

(1) Definitions (Continued)

(f) Designated Growth Area (Continued)

Assistance in determining whether a particular parcel of land is in a designated growth area can be obtained through the Department of Community Affairs Office of Smart Growth website at <http://www.nj.gov/dca/osg/>.

(g) Distribution Line means an electric line used to distribute electric energy which will or, in the sole opinion of the Company, may reasonably be expected to provide service to more than one customer.

(h) Distribution Revenue means the total revenue, plus related Sales and Use Tax, collected by the Company from a customer, minus the following, as applicable:

For an electric public utility, as defined at N.J.A.C. 14:4 – 1.2, Basic Generation Service charges, plus Sales and Use Tax on the Basic Generation Service Charges, and, unless included with the Basic Generation Service Charges, transmission charges derived from FERC approved Transmission Charges, plus Sales and Use Tax on the transmission charges, assessed in accordance with the Company's tariff.

(i) End User means a person who receives electricity service. An end user may or may not be a customer, as defined above.

(j) Extension means the construction or installation of plant and/or facilities by the Company\* to convey service from existing or new plant and/or facilities to one or more new customers, and also means the plant and/or facilities themselves. This term includes all plant and/or facilities for transmission and/or distribution, whether located overhead or underground, on a public street or right of way, or on a private property or private right of way, including the wire, poles or supports, cable, pipe, conduit or other means of conveying service from existing plant and/or facilities to each unit or structure to be served, except as excluded in 1 and 2 below. An extension begins at the existing infrastructure and ends as follows:

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(1) Definitions (Continued)

(j) Extension (Continued)

1. For an overhead extension, the extension ends at the point where the Service Line connects to the building, but also includes the meter.
2. For an underground extension, the extension ends at, and includes the meter; unless the applicant and the Company make other arrangements.

\* See General Information Section No. 16, "Service Lines", for Company and customer responsibilities for the installation of Service Lines.

(k) New Jersey State Planning Commission means the commission established by the State Planning Act, N.J.S.A. 52:18A-196 et. seq.

(l) Office of Smart Growth means the Office in the Department of Community Affairs that staffs the State Planning Commission and provides planning and technical assistance as requested. The Office of Smart Growth serves the same functions as the Office of State Planning, described at N.J.S.A. 52:18A-201.

(m) Person means an individual, firm, joint venture, partnership, co-partnership, co-partnership, corporation, association, State, county, municipality, public agency or authority, bi-state or interstate agency or authority, public utility, regulated entity, cable television company, cooperation association, or joint stock association, trust, limited liability company, governmental entity, or other legal entity, and includes any trustee, receiver, assignee, or personal representative thereof.

(n) Planning Area has the meaning assigned to the term in the rules of the State Planning Commission at N.J.A.C. 5:85-1.4. As of December 20, 2004, this term is defined in those rules to mean an area of greater than one square mile that shares a common set of conditions, such as population density, infrastructure systems, level of development, or environmental sensitivity. The State Development and Redevelopment Plan sets forth planning policies, which serve as the framework to guide growth in the context of those conditions.

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(1) Definitions (Continued)

- (o) Plant and/or facilities means any machinery, apparatus, or equipment, including but not limited to, wires, cables, substations, poles or other supports, transformers, and switches, used for transmission or distribution of electricity. This term includes service lines and meters, but does not include equipment used solely for administrative purposes, such as office equipment used for administering a billing system.
- (p) Regulated Entity means a person or entity that is subject to the jurisdiction of the Board, or that provides a product or service subject to the jurisdiction of the Board. This term includes a public utility, as defined in N.J.A.C. 14:3-1.1.
- (q) Residential Customer means a customer who receives electricity service for use in his or her residence.
- (r) Residential Subdivision means a tract of land divided into three or more lots, as approved by the appropriate authorities, for the construction of three or more new residential buildings, or the land on which new multiple occupancy buildings are to be constructed.
- (s) Service Line means an electric line used to connect a distribution line to an individual customer's meter or point of attachment; a service line, at the Company's discretion, may be connected to two or more meters at a single premises.

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(2) Scope and Applicability

This section governs the construction of an extension to provide service to a customer, except that this section does not apply to any extension or any portion of an extension that is regulated by the Federal Energy Regulatory Commission (FERC). This section applies to the construction of extensions to provide service to all customers, whether residential or non-residential.

This section addresses whether and how the Company may contribute financially to an extension made in response to an application for service by a person. The extent to which the Company will pay for or contribute financially to the cost of an extension depends on whether the customers that the extension will serve are located in an Area Not Designated for Growth or a Designated Growth Area as defined above, or a Smart Growth Infrastructure Incentive Program (SGIIP) area, as defined below. Any other extension is not subject to this section; nor is any maintenance, repair or operation of an extension; or any expansion, upgrade, improvement, or other installation of Plant and/or Facilities, wherever located, except as provided for in the subsection "Smart Growth Infrastructure Investment Program (SGIIP)".

This section also includes provisions regarding whether an extension shall be placed overhead or underground.

The Company shall not construct an extension or portion thereof if the extension is not required under N.J.S.A. 48:2-27 or other applicable law.

(3) General Requirements to Provide Extensions

To obtain service to one or more new customers, a person shall complete and submit to the Company a signed application for the construction of an extension of the Company's lines and facilities. Prior to accepting the application, the Company shall provide the applicant with a copy of N.J.A.C. 14:3-8 "Extensions to Provide Regulated Services". At the time of submittal of an application for an extension, the Company shall obtain from the applicant a signed certification that the applicant received a copy of N.J.A.C. 14:3-8 "Extensions to Provide Regulated Services".

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(3) General Requirements to Provide Extensions (Continued)

If an applicant for an extension has met all the requirements in this section, the Company shall install the requested extension in accordance with this section. The Company shall not construct an extension or furnish service to any customer unless all applicable requirements of this section have been met, unless otherwise ordered to do so by the Board.

The Company shall not construct, own, operate or maintain an extension on any property unless the Company is legally authorized to do so by an easement or right-of-way in a form reasonably acceptable to the Company. The applicant shall ensure that the Company is provided with such legal authority, at no cost to the Company and with no requirement for condemnation of the property.

In constructing and operating an extension, the Company shall use equipment and practices that meet all applicable requirements for line extensions, and which are consistent with applicable industry best practices and standards and the Company's minimum system design standards. An applicant may request equipment or service that exceeds these standards. If the Company provides this excess equipment or service, the Company may charge the applicant for the full cost of the excess facilities requested by the applicant.

The Company shall construct an extension with sufficient capacity to provide safe, adequate, and proper service to customers, in accordance with the Company's and/or the industry's system design standards.

(4) General Provisions Regarding Extensions

Where an extension is required to provide service to one or more new residential or non-residential customers, the procedures set forth in this section shall be utilized as a guide to determine the Company's and the applicant's cost responsibility for construction of such extension. This section also includes provisions regarding deposits and non-refundable contributions in aid of construction ("CIAC"), which may be required of the person applying for such extension to ensure adequate compensation for the Company's investment to supply service. An extension shall become the property of the Company upon its completion.

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(4) General Provisions Regarding Extensions (Continued)

The Company shall pay for or financially contribute to the cost of an extension in accordance with this subsection and the requirements set forth in the subsections "Charges for Extensions Serving an Area Not Designated for Growth" and "Charges for Extensions Serving a Designated Growth Area", whichever is applicable.

The estimated cost of an extension for which the Company receives a deposit, or receives a non-refundable contribution, shall include the tax consequences incurred by the Company as a result of receiving deposits or CIAC under the Tax Reform Act of 1986. Deposits are non-interest bearing.

All parties to an extension shall cooperate fully in order to facilitate construction of an extension at the lowest reasonable cost consistent with system reliability and safety. This includes sharing trenches where practicable, and coordinating scheduling and other aspects of construction to minimize delays and to avoid difficult conditions such as frozen or unstable soils.

The Company may contract with an applicant to design, purchase, construct or maintain an extension on behalf of the applicant. The Company shall be paid for the cost of constructing or installing an extension on behalf of an applicant in accordance with this section.

Where an Extension provides service to both a Designated Growth Area and an Area Not Designated for Growth, the costs of the Extension shall be apportioned between the areas based on the projected loads to be served in each area, as determined by the Company.

(5) Charges for Extension Serving an Area Not Designated for Growth

The Company shall not pay for or contribute financially to any extension or portion thereof which has been requested solely to serve development in an Area Not Designated for Growth, except as may be provided for under the exemptions set forth below.

Where an applicant requests service to an Area Not Designated for Growth, the applicant will be charged, as a CIAC, for the full cost of the extension installed to provide service to the applicant.

If the Company chooses to construct additional capacity and or distribution facilities, not requested by the applicant and greater than the capacity required under the subsection "General Requirements to Provide Extensions", the cost of that additional capacity and/or distribution facilities shall not be governed by this subsection but shall be governed by N.J.A.C. 14:3-8.5(h).

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(5) Charges for Extension Serving an Area Not Designated for Growth (Continued)

In accordance with N.J.A.C. 14:3-8.8, the following extensions shall not be subject to the provisions of this subsection:

- (a) An extension serving certain agricultural buildings or structures, whose sole use is the production, storage, packing or processing of agricultural or horticultural products, provided that a majority of these products were produced on a New Jersey commercial farm, as defined in N.J.S.A. 4:1C-3. Such extension shall be subject to the requirements set forth in the subsection "Charges for Extension Serving a Designated Growth Area".
- (b) A prior agreement or Board order requiring the Company to provide certain extensions without charge. If the Company has entered into a prior written agreement with the Board that requires the Company to provide certain extensions without charge, or has been ordered by the Board to provide certain extensions without charge, such extensions shall not be subject to this subsection. For an agreement or Board order to qualify for this exemption, the agreement shall have been executed prior to March 20, 2005.
- (c) An extension already in progress as of March 20, 2005. If construction of an extension has begun prior to March 20, 2005, or if the Company has committed in writing to pay for or financially support the extension, prior to March 20, 2005, the extension shall be exempt.
- (d) An extension that will provide a significant public good. To obtain an exemption based on a significant public good, a person shall demonstrate to the Board that all of the following criteria are met:
  - 1. The project or activity served by the extension would provide a significant benefit to the public or to the environment;
  - 2. That the project described in 1 above is consistent with smart growth, or that the benefit of the project outweighs the benefits of smart growth. In making this determination, the Board will consult with the Office of Smart Growth and other State agencies; and
  - 3. There is no practicable alternative means of providing the benefit while still complying with N.J.A.C. 14:3-8.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public Utilities, State of New Jersey, dated June 22, 2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(5) Charges for Extension Serving an Area Not Designated for Growth (Continued)

- (e) An extension for which compliance would cause extraordinary hardship. To obtain an exemption based on extraordinary hardship, a person shall demonstrate to the Board that all of the following criteria are met:
1. Compliance with N.J.A.C. 14:3-8 would cause an extraordinary hardship;
  2. The extraordinary hardship results from unique circumstances that do not apply to or affect other projects in the region;
  3. The unique circumstances arise from the project itself and not from the circumstances or situation of the Company or its customers; and
  4. Neither the extraordinary hardship nor the unique circumstances are the result of any action or inaction by the regulated entity, its shareholders, or its customers.

Exemptions (a) through (c) above shall not require prior written approval from the Board. Exemptions (d) or (e) above shall require prior written approval from Board staff.

The cost of an extension that is exempt under this subsection shall be distributed as follows:

- (a) If an extension is eligible for an exemption based on a prior agreement or Board order, the Company shall pay for or financially contribute to the extension only to the extent required by the prior agreement or Board order. To the extent that the prior agreement does not specify the distribution of costs for the extension, the requirements for extensions that serve an Area Not Designated for Growth shall apply;
- (b) If an extension is eligible for an exemption based on a project in progress under 5.(c) above, the Company shall pay for or financially contribute to the extension only to the extent that it previously committed to do so in a written agreement. To the extent that the Company has not committed to pay for the extension, the requirements for extensions that serve an Area Not Designated for Growth shall apply;

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public Utilities, State of New Jersey, dated June 22, 2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(5) Charges for Extension Serving an Area Not Designated for Growth (Continued)

- (c) For an exemption based on significant public good or extraordinary hardship, the Board shall determine the distribution of costs for the extension at the time of approval of the exemption; and
- (d) For any exemption not covered at (a), (b), or (c) above, the Company shall pay for or financially contribute to an extension in accordance with the subsection "Charges for Extension Serving a Designated Growth Area".

(6) Charges for Extension Serving a Designated Growth Area

The Company will pay for or contribute financially to an extension or portion thereof that has been requested in order to provide service in a Designated Growth Area as described below.

If the Company chooses to construct additional capacity not requested by the applicant and greater than the capacity required under the subsection "General Requirements to Provide Extensions", the cost of that additional capacity shall not be governed by this subsection but shall be governed by N.J.A.C. 14:3-8.5(h).

(7) Deposits - General Provisions

An applicant may be required to provide the Company with a deposit prior to the construction of an extension. The amount of the deposit shall be determined according to the deposit provisions set forth below. The Company shall refund the refundable portion of a deposit in accordance with the provisions set forth below.

For purposes of determining the amount of the deposit, the following shall apply:

- (a) The Company shall determine the cost of the extension in accordance with General Information Section 15, and shall add to this the tax consequences incurred by the Company under the Tax Reform Act of 1986 as a result of receiving the deposit;
- (b) The Company shall assume that the electric service connection to each building will be at the nearest corner of the building to the point at which the service enters the property;

(Continued)

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(7) Deposits - General Provisions (Continued)

- (c) If an applicant requests service that costs more than that which is standard under the Company's and/or the industry's system design standards, or if an extension presents an unusual situation in which providing standard service is substantially more expensive than usual, the Company may charge the applicant or the customer for the extra expense. In accordance with (a) below, this charge is not refundable. In such a case, the Company shall not charge the applicant more than the actual cost for the extra work required; and
- (d) If the extension requires the Company to pay an attachment charge for the use of utility poles located on private property and not owned by the Company, the Company may include the cost of the attachment charge when calculating the cost of the extension.

The following portions of a deposit are nonrefundable and shall constitute a contribution in aid of construction (CIAC):

- (a) For all extensions, the cost of extra service, or of extra work required to provide standard service, in accordance with N.J.A.C. 14:3-8.9(d) 3; and
- (b) For an underground extension of electricity, the additional cost for underground service over and above the amount it would cost to serve those customers overhead. This shall include the cost of any temporary overhead installation.

(8) Deposits - Designated Growth Area

The requirements in this subsection apply in addition to the requirements in the subsection "Deposits – General Provisions". This subsection addresses how a deposit will be determined and how the refundable portion of a deposit will be determined for extensions serving multi-unit or non-residential developments and for extensions serving a single residential customer.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(8) Deposits - Designated Growth Area (Continued)

(a) Multi-unit Development or Non-residential Customer

This subsection is applicable to multi-unit developments and non-residential customers. The deposit for extensions under this subsection shall be the cost of the extension required to provide service. Prior to construction of the extension, the Company shall notify the applicant of the cost to construct an extension to serve the customer or development for which service is requested.

The cost responsibility of an extension shall be determined by mutual agreement between the Company and the applicant. If the Company and the applicant cannot agree upon a financial arrangement regarding the cost of the extension, the cost of the extension and the refund of the refundable portion of the deposit shall be in accordance with this General Information Section 15.

For purposes of calculating the amount of the deposit, the development for which service is requested shall be determined by reference to the subdivision map approved by the applicable local authorities. If a development is to be approved and constructed in phases, the applicant shall indicate which phases are to be treated as separate developments for purposes of determining the deposit.

As each customer served by the extension begins receiving service, the Company shall refund to the applicant such customer's refundable portion of the deposit. The refund shall be the estimated annual distribution revenue that will result from the customer multiplied by ten. In no event shall the Company refund more than the refundable portion of the deposit nor shall the Company refund any portion of the refundable portion of the deposit remaining after ten years from the date upon which the Company is first ready to render service from the extension.

(b) Single Residential Customer

This subsection is applicable where the extension is constructed to serve a single residential customer. The applicant shall be required to make a deposit, which shall be determined as follows:

1. The Company shall estimate the cost of the extension required to provide service to the customer.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Utilities, State of New Jersey, dated June 22,  
2005 in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(8) Deposits - Designated Growth Area (Continued)

(b) Single Residential Customer (Continued)

2. The Company shall estimate the annual distribution revenue to be derived from the customer, and multiply it by ten, to obtain estimated distribution revenue over a ten-year period.
3. The Company shall subtract the estimated ten-year distribution revenue determined under 8 (b) 2 above, from the refundable portion of the estimated cost of the extension. The refundable portion of the estimated cost of the extension shall be determined in accordance with the subsection "Deposits – General Provisions". The remaining amount shall be held by the Company as a deposit.

If during the ten-year period after a single residential customer begins receiving service, additional customers connect to the extension and begin receiving service, the Company shall refund to the initial customer on whose behalf the Company holds a deposit, an amount equal to ten times the distribution revenue to be derived from the additional customers.

In no event shall the Company refund more than the refundable portion of the deposit nor shall the Company refund any portion of the refundable portion of the deposit remaining after ten years from the date upon which the Company is first ready to render service from the extension.

(9) Smart Growth Infrastructure Investment Program (SGIIP)

This subsection sets forth the process by which the Board shall authorize coverage of certain infrastructure investments under a smart growth infrastructure investment program (SGIIP). Under a SGIIP, the charges for infrastructure improvements shall be governed by the same rules set forth in this section that apply to extensions serving designated growth areas, except that the following shall apply:

- (a) The Company may include the cost of necessary relocations, upgrades, and expansions of infrastructure, which are necessary to serve new customers, in the costs covered by the SGIIP; and
- (b) The Company shall refund any deposit required as set forth below.

**GENERAL INFORMATION**

**No. 15 EXTENSION OF LINES AND FACILITIES: (Continued)**

(9) Smart Growth Infrastructure Investment Program (SGIIP) (Continued)

A SGIIP area is any area in a municipality that is located in planning area 1, and for which the municipality has obtained appropriate formal endorsement from the State Planning Commission.

In a SGIIP, an extension serving development in the SGIIP area shall be subject to the same provisions of this section applicable to an extension serving a designated growth area, except that the following differences shall apply:

- (a) The rate at which deposits are refunded to the applicant shall be 20 times annual distribution revenue, rather than 10 times; and
- (b) Any costs that the Company charges to an applicant for the relocation, upgrade, or expansion of infrastructure to serve a development for which the Company is also providing an extension shall be considered part of the deposit.

## GENERAL INFORMATION

### **No. 15B UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS:**

The Company will provide the necessary electrical materials, design plans and specifications for the installation of underground primary voltage electric lines between its existing facilities along the public way and the customers point of use.

(1) Applicability

This General Information Section No. 15B is applicable only to service to new buildings or complexes or to existing buildings or complexes with increased electrical capacity taking primary service or requiring at least 400 ampere secondary service. The Company may, at its sole discretion and if circumstances warrant, apply this section to a secondary service less than 400 amperes.

(2) Definitions

The following definitions shall apply for the purposes of this General Information Section No. 15B.

- (a) Applicant - The developer, builder, or other entity applying for the construction of an underground electrical system.
- (b) Building - A structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts.
- (c) Complex - More than one attached or detached buildings erected on a single or several contiguous parcels of land and not separated by a public street or right of way.
- (d) Project - A building or complex of buildings together with the associated onsite improvements.
- (e) Underground electrical system - The underground primary voltage distribution lines and primary voltage service lines in a project.

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15B UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO  
CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS: (Continued)**

(3) Customer Obligation

- (a) Each applicant for underground service under this section shall supply to the Company:
  - (i) A copy of a site plan for the project, which has received all final governmental approvals.
  - (ii) An acceptable easement on the form provided by the Company, together with such assurance of title as the Company may require.
  - (iii) An application and agreement for electric service to the project on appropriate forms provided by the Company, executed by the applicant or its authorized representative.
  - (iv) Such security for electric service as may be required by the applicable tariff and otherwise comply with all other applicable provisions of the Company's tariff.
  - (v) The name and qualifications of the applicant's electrician who will make the installation of the underground electrical system.
  - (vi) Indemnification and Certificates of insurance as required by the Company.
- (b) The applicant will, at its cost, provide all trenching and backfilling, all installation work and all other work necessary to install the underground electrical system, using materials supplied by the Company, in conformity with the design plans and specifications furnished by the Company. The applicant may be required to pay for such material in accordance with Section (5) below. The applicant will arrange for and permit inspection of the installation by representatives of the Company at appropriate stages of construction and will, upon request of a representative of the Company, make all corrections necessary in order that the installation will comply with the design plans and specifications and with all applicable electrical codes.

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15B UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO  
CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS: (Continued)**

(3) Customer Obligation (Continued)

- (c) The customer will use the materials furnished by the Company in accordance with Subparagraph (4) (b) solely for the purpose of constructing the underground electrical system in the project. The applicant will furnish all materials needed for the completion of the underground electrical system beyond the materials to be furnished by the Company pursuant to Subparagraph (4) (b).

(4) Company Obligation

- (a) The Company will provide to the applicant design plans and specifications for the underground electrical system for a project actually under construction or for any existing project in which electrical capacity is being increased. If the Company does not have suitable existing facilities upon the public street or right of way abutting the project, an extension from suitable existing facilities to a point abutting the project shall be made by the Company only in accordance with other applicable portions of this tariff and nothing in this section shall be deemed a variation therefrom.
- (b) The Company will furnish to the applicant all materials needed to construct the underground electrical system in accordance with the design plans and specifications furnished by the Company.
- (c) If the installation of the underground electrical system has not been completed by the applicant within six months from the date upon which the materials, design plans and specifications are furnished to the applicant (unless an extension is granted by the Company) the work shall be deemed to have been abandoned and the Company, at the applicant's expense, may reclaim possession of any and all materials, whether or not installed. The applicant will reimburse the Company for all cost and expenses incurred by the Company in the performance of its obligation to the applicant under this section and of the reclaiming of the materials, less the actual salvage value of any materials reclaimed; any payment made to the Company for extension of its distribution lines from existing facilities to a point abutting the project shall be retained by the Company.

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 15B UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO  
CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS: (Continued)**

(4) Company Obligation (Continued)

- (d) Upon completion of the installation (including testing) in accordance with the design plans and specifications, approval of the installation by the Company and delivery to the Company of satisfactory evidence that there are no unpaid claims for labor or material furnished to the applicant (whether or not a lien has been acquired with respect to such claim), the Company will accept ownership of the underground electrical system and thereafter be responsible for the operation, maintenance and repair thereof.

(5) Applicant Contribution for Materials

(a) Designated Growth Area

The Company will make no charge for the materials if the estimated Distribution Revenue to the Company from the project for the first ten full calendar years following completion of the installation of the underground electrical system is equal to or exceeds the cost of the materials. Any portion of the cost which is in excess of ten times such Distribution Revenue will be paid by the applicant before any material or services will be supplied by the Company. If an overhead or underground line extension is required to extend existing facilities to a point abutting the project, the Distribution Revenue, for the purposes of this subparagraph, shall mean only that Distribution Revenue in excess of the amount of Distribution Revenue which is required to obligate the Company to pay for the line extension.

(b) Area Not Designated for Growth

The cost of the materials will be paid by the applicant before any material or services will be supplied by the Company.

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 16 SERVICE LINES:**

The terms "Service Line", "Distribution Line" and "Residential Subdivision", as defined in General Information Section No. 15, shall apply to this section.

(1) Overhead Service Lines:

The Company will construct and maintain all overhead service lines from its distribution lines adjacent to a customer's premises to the service entrance of the building or structure where service is to be metered.

(2) Underground Service Lines:

a. Residential Underground Service Lines:

- (1) Within a Residential Subdivision, the Company shall install the underground Secondary voltage Service Line from its Distribution Line to the customer's metering point. The Company shall own and maintain the Service Line.
- (2) Outside of a Residential Subdivision, the customer shall install the underground Secondary voltage Service Line from the Company's Distribution Line to the customer's metering point. The customer shall own and maintain the Service Line.
- (3) Primary voltage Service Lines shall be installed in accordance with General Information Section No. 15B.

b. Non-Residential Underground Service Lines:

- (1) Secondary voltage Service Lines shall be installed by the customer from a Company-designated point of connection to the customer's meter. The customer shall own and maintain the Service Line.
- (2) Primary voltage Service Lines shall be installed in accordance with General Information Section No. 15B.

The customer, at his own expense, in advance of the construction of Company facilities on the customer's property, shall provide to the Company all necessary easements and rights of way to enable the Company to construct and maintain its facilities.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 17 LOCATION OF SERVICE WIRES, METER, ETC.:**

Upon application to the Company, it will send a representative who will designate by suitable marker the proper entrance and meter location for service to be furnished. Such meter location shall be maintained by the customer in such manner as to be readily accessible to the Company representatives and kept free from excess vibration.

**No. 18 OUTDOOR METERING:**

- (a) The Company shall require all new residential dwellings to be provided with facilities supplied by the customer to accommodate outdoor metering equipment. Indoor location of meter(s) for new residential service will be approved only when there is no suitable place outside to set the meter(s). When indoor meter location(s) are approved and utilized, free access by Company representatives to the meter(s) at all reasonable times shall be possible.
- (b) The cost of all facilities required for the meter(s) shall be borne by the customer.

**No. 19 WIRING, APPARATUS AND INSPECTION:**

All wiring and apparatus including service switches, fuses, meter loops and a proper location and support for the Company's meter and other apparatus shall be furnished and maintained by the customer in accordance with the Wiring Rules and Regulations of the Company, the National Electrical Code of the National Board of Fire Underwriters, all laws and governmental regulations that may be in force, and it shall be a condition precedent to the initial and continuing supply of electricity by the Company that the Company may seal such service and meter-switch and adjust, set and seal such switches, and that such seals shall not be broken and that such adjustments or settings shall not be changed or in any way interfered with by the customer.

The Company reserves the right to make an inspection of the premises before connecting service wires or installing meter in order to see that its rules are complied with, but in doing this, assumes no liability for the safety of the installation. The Company shall conduct an initial inspection of the premises at no cost to the applicant. If the installation is not in compliance with the Company's and/or other applicable rules, service shall not be rendered and the Company shall assess a re-inspection fee of \$48.63 for any subsequent re-inspections of the installation.

**No. 20 PERMITS AND INSPECTION FEES:**

The Customer must secure and pay for all permits, municipal or otherwise, required by Law for the installation and operation of the electrical wiring and equipment on the premises.

ISSUED: March 30, 2007

EFFECTIVE: April 1, 2007

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public Utilities, State of New Jersey, dated March 22, 2007 in Docket No. ER06060483.

**GENERAL INFORMATION**

**No. 21 ELECTRICAL INSPECTION AUTHORITIES:**

The customer must provide the Company with an electrical inspection certificate indicating that the customer's service installation complies with applicable codes prior to commencement of service. Following are names and addresses of electrical inspection authorities:

Middle Department of Fire Underwriters  
26 State Street, Box 243  
Hackensack, New Jersey 07602

Borough of Franklin Lakes  
De Korte Drive  
Franklin Lakes, New Jersey 07417

Borough of Oakland  
8 Glenview Road  
Nutley, New Jersey 07110

Borough of Ramsey  
Building Department  
33 N. Central Avenue  
Ramsey, New Jersey 07446

Borough of Upper Saddle River  
376 W. Saddle River Road  
Upper Saddle River, New Jersey 07458

Garden State Electrical Inspection  
115 Beech Avenue  
Pompton Lakes, New Jersey 07442

**No. 22 RIGHTS OF WAY AND TREE TRIMMING RIGHTS:**

The furnishing of service is contingent upon the Company's ability to secure and maintain rights of way and suitable tree trimming rights under terms and conditions acceptable to the Company, and the Company shall not be required to supply electric service until a reasonable time after such rights have been obtained.

**No. 23 INCREASED CAPACITY:**

Reasonable notice in writing must be given by the Customer to the Company before adding additional equipment. If an upgrade of existing customer-owned service entrance equipment is necessary due to increased load or building expansion ("service upgrade"), such notice shall state the amount, character and expected duration of time the increased service will be required.

Service upgrades shall be performed by licensed electrical contractors in compliance with the National Electric Code, Company Specifications For Electric Installations, and any other applicable federal, state or local regulations governing such installations.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 23 INCREASED CAPACITY: (Continued)**

If a service upgrade necessitates additional or enlarged Company facilities, and existing Company facilities have been in place for ten years or more, the Company shall apply the following rules:

(1) Residential Service Upgrades:

a. Overhead Service

The Company shall upgrade its existing overhead Service Line, as necessary, at no cost to the customer.

b. Underground Service

(1) Within a Residential Subdivision, the customer, or its qualified contractor, at the customer's expense, shall dig the required trench in accordance with Company specifications. The Company shall install the new underground service line at no cost to the customer.

(2) Outside of Residential Subdivisions, the customer, or its qualified contractor, at the customer's expense, shall install the new underground service from the customer's service entrance equipment to a connection point on the Company's Distribution Line, as determined by the Company. The Company shall connect the customer's service line to the Company's Distribution Line at no cost to the customer.

(2) Non-Residential Service Upgrades:

a. Overhead Service

The Company shall upgrade its existing overhead Service Line, as necessary, at no cost to the customer.

b. Underground Service

The customer, or its qualified contractor, at the customer's expense, shall install the new underground service from the customer's service entrance equipment to a connection point on the Company's Distribution Line, as determined by the Company.

The Company shall connect the customer's service line to the Company's Distribution Line at no cost to the customer.

The rules of General Information Section No. 15B shall apply to qualifying customers.

(Continued)

ISSUED: July 1, 2005

EFFECTIVE: March 20, 2005

ISSUED BY: John D. McMahon, President  
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public  
Utilities, State of New Jersey, dated June 22, 2005  
in Docket No. AX03120973.

**GENERAL INFORMATION**

**No. 23 INCREASED CAPACITY: (Continued)**

- (3) The following conditions shall be considered Extensions and the rules of General Information Section No. 15 applicable to Designated Growth Areas shall apply regardless whether the customer is located in a Designated Growth Area or an Area Not Designated for Growth:
- a. the customer requests a change in voltage characteristics (e.g., single phase to three phase, 120/208V to 277/480V); or
  - b. a change to a Company Distribution Line is necessary in order to provide a connection point for the customer's new service.
- (4) The following conditions shall be considered Extensions and the rules of General Information Section No 15 shall apply:
- a. an existing non-residential structure has been demolished or substantially demolished and a new structure is being built in its place;
  - b. an existing residential structure has been demolished or substantially demolished and a new structure, having a square footage greater than three times the square footage of the original structure, is being built in its place; or
  - c. there has been a change in the use of a residential facility or in the type of business conducted at a non-residential facility.

If a service upgrade necessitates additional or enlarged Company facilities, and existing Company facilities have been in place for less than ten years, the Company shall install such additional or enlarged facilities at the customer's sole expense.
