2) Name _____ Social Security Number _____ - _____ - _____
Home Address _____

SECTION 2 - Determination of Service Classification and Requirements

The questions on these pages are designed to assist us in placing you on the proper and most beneficial service classification. The information you supply may be used to determine what service classification you are eligible for. The information may also be used to determine service requirements. Please review the General Service classifications listed below. There are eligibility requirements for each classification and you may be eligible under more than one. Costs vary under different service classifications, however, one classification may be more beneficial to your business than another. A complete description of all service classifications may be found in O&R's filed Tariff, which is available for inspection at every Regional Office and Customer Service facility. Any questions regarding service classifications may be discussed with a Representative. If the information provided on this application is inaccurate or incomplete, the customer may be subject to backbilling on the correct service classification or precluded from receiving a refund for any overcharges. Should there be a change in usage or equipment at a future date, you must notify us to assure billing under the proper service classification.

GENERAL SERVICE CLASSIFICATIONSElectric Service Classification No. 1 - Residential Service

Applicable for use of service by any residential customers, including space heating.

Electric Service Classification No. 2 - General Secondary or Primary

Applicable for use of service by any nonresidential customer who establishes a minimum demand of 5KW or more. A special reduced rate is offered to any customer who installs a minimum of 10 KW or more of permanently installed heat pumps or electric heat. This provision will require the installation of a separate meter for the electric space conditioning equipment.

Electric Service Classification No. 3 - 100 Kilowatts Minimum

Applicable to use of service for all purposes by any customer who maintains a minimum of 100 KW demand for two consecutive months during the previous twelve months.

Electric Service Classification No. 9 - Commercial Time of Use Rate

Applicable to use of service for General Primary service commercial customers who maintain a minimum demand of 1,000KW during any two of the previous twelve months and provide all equipment required to take service at a primary voltage as designated by O&R.

Electric Service Classification No. 16 - Dusk to Dawn Lighting

Applicable to use of service for annual outdoor lighting in the New York service territory, installed on wood poles, when requested by property for private areas or within the areas of an adjacent highway, subject to permission of the State of New York or other municipal authority having jurisdiction over the highway. This service classification is not available for seasonal use.

GENERAL SERVICE CLASSIFICATIONS (Continued)

Electric Service Classification No. 20 - General Secondary Optional Time-of-Use Rate

Applicable to use of service by any nonresidential customer, at the customer's option, who establishes a minimum demand of 5KW or more during any two of the previous twelve months.

Electric Service Classification No. 21 - General Primary Optional Time-of-Use Rate

Applicable to use of service for General Primary service, at the customer's option, to customers who provide all equipment required to take service at a primary voltage as designated by the Company. All service at one location shall be taken through one meter. A customer whose demand exceeds 1,000KW during any two of the previous twelve months shall not be eligible for this rate.

Electric Service Classification No. 22 - Industrial Time-of-Use Rate

Applicable to use of service for General Primary service to industrial customers who maintain a minimum demand of 1,000KW during any two of the previous twelve months and provide all equipment required to take service at a primary voltage as designated by the Company.

Electric Service Classification No. 25 – Standby Service

Applicable to use of service for customers with private or wholesale generating facilities on their premises requiring standby service from the Company to replace and/or supplement the electric power supply ordinarily provided by means of the generating equipment.

SPECIAL PROVISION FOR SPACE CONDITIONING

Orange and Rockland Utilities, Inc. offers a reduced heating rate to customers who have a minimum of 10KW or more of permanently installed heat pump or electric space conditioning equipment. This provision will require the installation of a separate meter for the heating equipment.

SECTION 4 - DEPOSIT POLICY

O&R has included provisions in its tariff for requiring deposits from consumers, pursuant to Public Service Law, Section 117, and in accordance with 16 NYCRR.

Purpose of Deposit: To provide O&R with security for services rendered.

Amount of Deposit: A sum equal to twice the average monthly billing or twice the average monthly billing during peak usage period. O&R may change the deposit amount if it determines that the deposit held either falls short of or exceeds the amount that O&R may lawfully require by 25% or more.

Term of Deposit: The deposit will be held for a period of two years of prompt payment of bills for service.

Deposit Alternatives: A deposit may be a cash deposit, irrevocable letter of credit or surety bond.

Deposit Waiver: At its sole discretion, O&R may accept in lieu of a deposit, a customer's written promise to pay bills on receipt and a written waiver of the customer's right to be sent a final termination notice until 20 days after payment is due.

New Applicants for Service: A deposit will be required of an applicant for service whose standard industrial code designation has historically been identified as the type of business which fails frequently in the first two years of service.

SECTION 5 - SIGNATURE OF APPLICANT AND REPRESENTATIVE

NOTICE: O&R will test the customer's metering device(s) to assure its accuracy prior to , or within 30 days of, the initiation of service. This testing will establish a record of the condition of the metering device at the initiation of service and will preserve O&R's rights to backbill for unbilled service caused by any subsequent faulty operation of the metering device.

NOTICE: False Statements relative to the Name of the applicant and persons responsible for payment of charges may result in termination of service.

D. Form of Application for Construction of Excess Facilities

APPLICATION TO ORANGE AND ROCKLAND UTILITIES, INC. FOR THE CONSTRUCTION OF EXCESS FACILITIES FOR THE SUPPLY OF ELECTRIC SERVICE TO THE PREMISES SET FORTH BELOW.

The undersigned applicant:
.....{owner/occupant} of property at
....., hereby requests
Orange and Rockland Utilities, Inc, (hereinafter termed the "Company") to provide distribution and/or service facilities, as described in detail below, pursuant to General Information Section No. 3 (J) "Excess Facilities" provision of the Company's Schedule for Electric Service, P.S.C. No. 2 – Electricity ("Rate Schedule") in excess of those normally provided in connection with the supply of electric service of the type requested by the undersigned at the above-indicated premises.

Such excess facilities are requested for the following reasons:
.....
.....
.....

Such excess facilities are generally described as follows:
.....
.....
.....

The applicant hereby agrees to pay to the Company in advance of construction of such Excess Facilities the total Company-estimated cost of \$_____. Such cost shall include (1) all material and labor to construct such Excess Facilities; (2) all other ancillary costs associated with the installation, including but not limited to, labor costs for application administration, facility design, inspections, and installation of any necessary metering equipment; and (3) the present value of the estimated amount to cover taxes and maintenance (including replacements) on such facilities for ten years from the initiation of service hereunder. The discount rate used in the determination of the present value payment amount for taxes and maintenance shall be the interest rate for a ten-year Company issued bond at the time such payment amount is determined.

ISSUED: January 25, 2007 EFFECTIVE April 20, 2007
ISSUED BY: John D. McMahon, President Effective date postponed to June 22, Pearl River, New York 10965 2007 – See Supplement Nos. 180 and 181.

GENERAL INFORMATION

13. FORM OF APPLICATION FOR SERVICE (Continued)

D. Form of Application for Construction of Excess Facilities (Continued)

The applicant and the Company agree further that all customer payments shall be non-refundable. All Excess Facilities provided hereunder shall be and remain the property of the Company.

The Company reserves the right at any time and from time to time to substitute other facilities which, in the Company's judgment, will reasonably perform the functions for which such Excess Facilities were installed.

Where the Excess Facilities installed pursuant to this agreement include a separate service line (installed either by the Company or by the applicant), all service supplied from such service line shall be metered separately from other requirements of the applicant, and shall be billed separately in accordance with the applicable service classification of the Company's Rate Schedule.

This agreement and the supply of Excess Facilities and service hereunder are subject in all respects to the provisions of the Company's Rate Schedule and to the rules, regulations, terms and conditions therein set forth, and to any amendments thereof which may be made hereafter, all of which are hereby referred to and made a part hereof. The supply of Excess Facilities, and the furnishing of service therewith, shall be subject in all respects to lawful orders, rules or regulations of the Public Service Commission or of any governmental body having jurisdiction, and the Company shall not be liable for any inconvenience or damage to the applicant from the discontinuance or change of such Excess Facilities or the service supplied therewith if such discontinuance or change be required by law or by lawful order, rule or regulation of any governmental body, or by any amendments duly made to the Company's Rate Schedule.
