5. ABBREVIATIONS AND DEFINITIONS (Continued)

5.2 DEFINITIONS: (Continued) (C)

- (28) Notice or Termination Notice. A written statement which in conspicuous print, clearly and fully includes the following information when applicable:
- (a) The reason for the proposed termination.
 - (b) An itemized statement of all amounts currently due, including any required deposit.
 - (c) A statement that a specific reconnection fee will be required to have service restored after it has been terminated if such a reconnection fee is a part of the Company's tariff on file with the Commission.
 - (d) The date on or after which service will be terminated unless: payment in full is received, the grounds for termination are otherwise eliminated, a settlement or payment agreement is entered or a dispute is filed with the Company or the Commission.
 - (e) A statement that the residential customer should immediately contact the Company to attempt to resolve the matter, including the address and telephone number where questions may be filed and payment and settlement agreements entered into with the Company.
 - (f) The following statement: "If, AFTER discussing your problem with the Company you remain dissatisfied, you may file an informal complaint with the Public Utility Commission. TO AVOID TERMINATION OF SERVICE PENDING RESOLUTION OF A DISPUTE THIS INFORMAL COMPLAINT MUST BE FILED BEFORE THE PROPOSED DATE FOR TERMINATION OF YOUR SERVICE. You may file an informal complaint by telephoning the Public Utility Commission at (800-692-7380) or by writing to the following address: Pennsylvania Public Utility Commission, Box 3265, Harrisburg, Pennsylvania 17120.
 - (g) A serious illness notice in the form prescribed by the Public Utility Commission.
- (29) Occupant. Any person who resides in the premises to which Company service is provided.
- (30) Payment Agreement. An agreement whereby a residential customer who admits liability for billed service is permitted to amortize or pay the unpaid balance of the account in one or more payments.
- (31) Person. An individual, partnership, corporation, association, including any lessee, assignee, trustee, receiver, executor, administrator, and other successors in interest.
- (C) Indicates Change

RULES AND REGULATIONS

6. HOW TO OBTAIN SERVICE

6.1 APPLICATIONS:

An application for service may be made by the owner or occupant of any building or premises at any office of the Company. The Company may require that applications be in writing on the form prescribed by the Company. An application or agreement for service shall not be modified or affected by any promise or representation, oral or written, by any unauthorized agent or employee Or the Company. Contracts for service shall not be transferable or assignable.

6.2 PERMITS:

The Company will make application for any necessary highway permits for installing its service facilities and shall not be required to furnish service until a reasonable time after such permits are granted. The Customer, at his expense, must obtain and present to the Company for registration satisfactory easements, rights of way, permits (except highway permits), consents or certificates necessary to give the Company access to his installation and equipment and to enable its service to be connected therewith, or for other purposes in connection with the supply of service. Also, the Customer, at his expense, must secure all permits, municipal and otherwise, required by law for the installation and operation of equipment utilizing the service on his premises.

6.3 TEMPORARY SERVICE:

When service is to be used at a site where the needed facilities will not be used for permanent supply, such as for entertainments, construction purposes or other activities of limited duration, the cost of installation and removal of all facilities, less salvage value, shall be borne by the Customer, and a sufficient amount to cover this cost shall be paid in advance.

RULES AND REGULATIONS

6. HOW TO OBTAIN SERVICE (Continued)

6.4 EXTENSIONS OF LINES AND FACILITIES:

The Company will construct, own and maintain overhead supply facilities, either secondary or primary, located on the highway or on rights or way acquired by the Company and used or usable as part of the Company's general supply system.

The Company's obligation to extend its facilities to a new point of delivery is limited to the assumption of new investment to the extent warranted by the revenue anticipated from the business to be supplied.

Where the Company cannot be assured that the Customer to be served will be permanent or where unusual expenditures are necessary to supply service because of the location, size, or character of the Customer's installation, facilities will be constructed only when the Customer makes an adequate contribution toward the cost of such facilities, or makes other satisfactory arrangements which would be sufficient to warrant the Company to undertake the investment and expense involved.

All, or part, of that part of the cost of any extension which is financed by a Customer may be refunded to him over a term of years upon such basis or conditions as may be determined by the Company, and specified in the contract for service.

6.5 CASH DEPOSITS FOR NON-RESIDENTIAL CUSTOMERS

Deposits may be required from Customers taking service for a period of less than thirty days, in an amount equal to the estimated gross bill for such temporary period. Deposits may be required from all other Customers provided that, in no instance, may deposit be required in excess of the estimated gross bill for any single billing period plus one month (the maximum period not to exceed four months) with a minimum of \$5.00.

Deposits shall be returned to the depositor when he shall have paid undisputed bills for service over a period of twelve consecutive months; and any Customer having secured the return of a deposit shall not be required to make a new deposit unless the service has been discontinued and the Customer's credit standing impaired through failure to comply with tariff provisions.

RULES AND REGULATIONS

6. HOW TO OBTAIN SERVICE (Continued)

6.6 CREDIT AND DEPOSIT PROCEDURES FOR APPLICANTS AND RESIDENTIAL CUSTOMERS
(C)(Continued)

(A) General (Continued)

- (2) Any applicant or residential customer who is unable to establish creditworthiness to the satisfaction of the Company through the use of a generally accepted credit score methodology which employs standards for using the methodology that fall within the range of general industry practice.
- (3) A residential customer who fails to comply with a material term or condition of a settlement or payment agreement.

(B) Third Party Guarantor

An applicant may furnish a written guarantee from a third party guarantor in lieu of a cash deposit. The Guarantor shall be responsible for all missed payments owed to the Company by such residential customer.

(C) Payment of Deposits

The Company may deny service to an applicant that fails to pay the full amount of the cash deposit. Residential customers who are required to pay a deposit to have their service restored following termination shall have up to 90 days to pay the deposit. An applicant whose service has been terminated may elect to pay any required deposit in three installments: 50% payable upon determination that a deposit is required; 25% payable 30 days after the date of such determination; and the remaining balance payable 60 days after the date of such determination.

(D) Deposit Holding Period, Application of Deposits and Interest

- (1) The Company may hold a deposit until the residential customer establishes a timely payment history or up to a maximum of 24 months. A timely payment history is established when a residential customer has paid in full and on time all amounts due the Company for twelve consecutive months.
- (2) At the end of the holding period established in (1) above, the Company shall deduct the outstanding balance from the deposit and return and or credit any positive difference to the residential customer.

RULES AND REGULATIONS

7. CHARACTERISTICS OF SERVICE

In addition to the provisions hereof, service of particular characteristics is available only when such service is specified under "Character of Service" in the Service Classification under which service is supplied, and subject to the provisions of such Service Classification.

7.1 GENERAL:

Where three phase Service is supplied the Customer shall balance the current on each of the phases in a manner satisfactory to the company.

Frequencies and voltages referred to in the Service Classifications are approximate.

The Customer or his contractor should consult the Company as to characteristics of service available before purchasing electrical equipment for any installation or for additions to or replacements of existing installations or before moving electrical equipment to a new address.

The Company reserves the right to change its system and its method of operation from time to time, pursuant to law and the provisions of its schedule as, in its judgment, is necessary or advisable for economical and proper service to the public.

7.2 SECONDARY SERVICE:

Low tension service generally will be supplied single phase at 120/240 Volts, three wire, throughout the system. In limited areas three phase, four wire service will be recommended by the Company at 120/208, 120/240 or 277/480 Volts. No single phase motor in excess of 5 HP will be served unless the Company, after inspection of the specific installation, method of operation and other relevant factors, determines that such motor may be supplied without affecting the service to the Customer and neighboring customers. The Company may require that any motor shall be of such size and have such starting characteristics or be equipped with such starting current limitors as will satisfactorily minimize or eliminate the effect of such motors' starts upon the service supplied to the Customer or neighboring customers.

(Continued)

ISSUED: April 15, 1999 EFFECTIVE: May 1, 1999

ISSUED BY: R. Lee Haney
 Chief Financial Officer
 Milford, Pennsylvania

RULES AND REGULATIONS

7. CHARACTERISTICS OF SERVICE (Continued)

7.3 PRIMARY SERVICE:

High tension service will be supplied only as warranted by the magnitude of the load, its location or other physical conditions at the voltages designated in the Service Classification.

All equipment and apparatus necessary to change the frequency and/or voltage and/or other characteristics of the electricity furnished by the Company to conform to the requirements of the Customer shall be furnished and maintained by the Customer.

ISSUED: April 15, 1999 EFFECTIVE: May 1, 1999

ISSUED BY: R. Lee Haney
Chief Financial Officer
Milford, Pennsylvania

RULES AND REGULATIONS**8. SERVICE CONNECTIONS****8.1 GENERAL:**

The Company will construct and maintain all overhead service connections from its lines adjacent to a customer's premise to the service entrance of the building or structure where service is to be metered. The Company will furnish at its expense one span of wire and one pole, with attachments if needed for such connection and such portion of the connection shall be the Company's property. Where additional poles and wires are required, the Company, in the interest of safe and efficient service, will install such poles and wires at the customer's expense and for his account. In such case the customer shall pay to the Company, in advance, the cost of such additional poles and wires as estimated by the Company. The customer, at his expense, in advance of the construction of such connection shall provide to the Company all necessary easements and rights of way to enable the Company to construct and maintain such connection.

8.2 LOCATION OF SERVICE WIRES, METER, ETC.:

As the point of entrance on the customer's building depends on the location of the distribution line, inquiry must always be made before the customer's wiring is commenced as to the point where the meter, or meters, will be located. The Company will designate by a suitable marker the proper point of attachment and meter location for service to be furnished. Such meter location shall be maintained by the customer in such a manner as to be readily acceptable to the Company representatives and free from excessive vibration or other detrimental conditions. General specifications regarding services and meters are available at Company offices.

8.3 OUTDOOR METERING:

The Company recommends outdoor metering for residential service and may require an approved outdoor meter installation when:

- (A) there is no suitable place inside to set the meter,
- (B) the building is occupied or open only part of the time,
- (C) free access cannot be had to the meter at all reasonable times,
and
- (D) a Customer owns and maintains his private pole line.

ISSUED: April 15, 1999**EFFECTIVE:**

May 1, 1999

ISSUED BY: R. Lee Haney
Chief Financial Officer
Milford, Pennsylvania

RULES AND REGULATIONS

9. WIRING AND EQUIPMENT

9.1 WIRING, APPARATUS AND INSPECTION:

All wiring and apparatus, including service switches, fuses, meter loops and a proper location and support for the Company's meter and other apparatus shall be furnished and maintained by the Customer in accordance with the requirements of the Company, and that the wiring meet the standards of the National Electric Code and inspected by any electrical inspection agency duly authorized by the State of Pennsylvania, any Pennsylvania law and municipal regulations that may be in force, and it shall be a condition precedent to the initial and continuing supply of electricity by the Company that the Company may seal such service and meter switch and adjust, set and seal such switches, and that such seals shall not be broken and that such adjustments or settings shall not be changed or in any way interfered with by the Customer.

The Company reserves the right to make an inspection of premises before connecting service wires or installing meter in order to see that its rules are complied with. Neither by inspection or non-rejection, nor in any other way, does the Company give any warranty, express or implied, as to the adequacy, safety or other characteristics of any structures, equipment, wires, pipes, appliances or devices owned, installed or maintained by the Customer or leased by the Customer from third parties.

9.2 INCREASED CAPACITY:

The Customer shall give the Company reasonable advance notice, preferably in writing, of any proposed increase in service required, stating the amount, character and expected duration of time the increased service will be required. If such increase necessitates added or enlarged facilities (other than metering equipment) for the sole use of the Customer, the Company may require the Customer to make a reasonable contribution to the cost of adding or enlarging the facilities whenever the Customer fails to give assurance, satisfactory to the Company, that the taking of the increased service shall be of sufficient duration to render the supply thereof reasonably compensatory to the Company.

(Continued)

ISSUED: April 15, 1999 EFFECTIVE: May 1, 1999

ISSUED BY: R. Lee Haney
 Chief Financial Officer
 Milford, Pennsylvania

RULES AND REGULATIONS

9. WIRING AND EQUIPMENT (Continued)

9.3 WELDERS, MOTORS AND MISCELLANEOUS APPARATUS:

Before installing welders, motors or miscellaneous apparatus, the Customer shall consult the Company regarding the characteristics of the service to be supplied and the manner in which the equipment may be connected.

It is important that the characteristics of motors, motor starting equipment and miscellaneous apparatus, such as welders and X-rays, particularly in the matter of inrush currents, shall be such as not to impair the quality of service rendered by the Company to any of its Customers.

For welders, X-rays and other inherently single phase apparatus requiring inrush current in excess of the values allowed by the Company, the Customer shall provide rotating equipment for converting from three phase to single phase, or other equipment such as capacitors, to reduce inrush current to a value acceptable to the Company.

If miscellaneous appliances, such as furnaces, heaters and ranges, having 120 Volt elements are supplied from 3 or 4 wire services, the elements shall be so connected between the line wires and neutral that the operating current unbalance will be a minimum.

9.4 COMPANY SERVICE EQUIPMENT:

Where the Company considers transformers and associated equipment reasonably necessary for the adequate supply of service to a Customer or a Customer's premise, the Customer shall provide suitable space and reasonable access thereto, without rental charge.
