

**GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER**

**NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY
SYSTEMS**

Applicable to Service Classification Nos. 1, 2, 3, 5 and 7

Eligibility

A customer operating a qualifying class I renewable energy system as defined at N.J.A.C. 14:8-1.2 ("Customer-generator") located on the customer's side of the electric meter, used at the customer's residence or facility is eligible for service hereunder, provided that (1) the generating capacity of the Customer-generator's facility does not exceed the amount of electricity supplied by the electric power supplier or basic generation service provider to the customer over a historical 12-month period; (2) the Customer-generator's annual peak demand is less than ten megawatts; and (3) the Customer-generator complies with the provisions of this Rider.

The Customer-generator will be required to submit an application for service under this Rider and pay an application processing fee as defined in N.J.A.C. 14:8-5 at the time of application. The Customer-generator will also be required to submit a signed Net Metering Agreement to the Company and the Company's execution of such Net Metering Agreement shall constitute approval for the Customer-generator to receive service hereunder.

Interconnection with the Company's system will be in accordance with the terms and conditions set forth in the Net Metering Agreement. Interconnection costs shall be paid as defined in N.J.A.C. 14:8-5 and shall be in addition to any line extension charge required to meet service requirements.

Net metering shall be available to eligible Customer-generators on a first-come, first-served basis. The Company may be authorized by the Board to cease offering net metering whenever the total rated generating capacity owned and operated by net metering Customer-generators Statewide equals 2.5 percent of the State's peak electricity demand.

SERVICE CLASSIFICATION RIDER (Continued)

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS (Continued)

Metering and Billing

Metering may be accomplished using a single meter to record the energy delivered by the Company to the Customer-generator and energy supplied by the Customer-generator to the Company. The Company shall be permitted to install a second meter, at its expense if the Customer-generator consents. The Customer-generator may request that the Company install a second meter at the Customer-generator's expense.

The Company will employ net energy metering to measure and charge for the net energy delivered by the Company as follows:

- (1) If the amount of energy delivered by the Company exceeds the amount of energy supplied to the Company (net purchase by Customer-generator) in a billing period, the Customer-generator will be billed for such net purchase at the rates specified in the Customer-generator's applicable Service Classification.
- (2) If the amount of energy supplied to the Company exceeds the amount of energy delivered by the Company (net sale by Customer-generator) during a billing period, that amount will be transferred to the next billing period and added to any sales by the Customer-generator in that billing period. At the end of each twelve-month period ("Annualized Period"), any cumulative net sale by a Customer-generator shall be purchased as described below.
 - (a) A net sale, by a Customer-generator purchasing Basic Generation Service from the Company, will be purchased by the Company at the PJM Load Weighted Average Residual Metered Load Aggregate Locational Marginal Price, averaged over the twelve-month period. A credit voucher will be issued to the Customer-generator for the amount resulting from such net sale. This credit shall be used to offset electric bills issued to the Customer-generator following the date the credit is issued.
 - (b) A net sale, by a Customer-generator purchasing Competitive Energy Supply, will be purchased by the Customer-generator's Electric Generation Supplier at its avoided cost of wholesale power.

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS (Continued)

Metering and Billing (Continued)

- (2) (Continued)

When a Customer-generator switches electric suppliers, the electric power supplier or basic generation service provider with whom service is terminating shall treat the end of the service period as if it were the end of the Annualized Period.

The selection of the Annualized Period of a Customer-generator shall be in accordance with the terms and conditions set forth in N.J.A.C. 14:8-4.

Aggregated Net Metering

- (1) Aggregated net metering shall be permitted in accordance with the terms and conditions set forth in N.J.A.C. 14:8-7.

Interconnection Standards

- (1) Customer-generators shall comply with the Company's Interconnection Standards, and meet all applicable safety and power quality standards approved by the National Electrical Code, Institute of Electrical and Electronics Engineers, and accredited testing institutions, such as Underwriters Laboratories. All Customer-generator facilities shall also comply with all other requirements in N.J.A.C. 14:8-5.
- (2) The Company may not require an eligible Customer-generator whose system(s) meets the standards above to install additional controls, perform or pay for additional tests or purchase additional liability insurance.

Reporting

The Company and Electric Generation Suppliers providing Competitive Energy Supply to the Company's customers shall each submit two net metering and two interconnection reports per year, one covering January 1 through June 30 and one covering July 1 through December 31. These reports shall be submitted by August 1 and February 1, respectively.

The net metering report shall include the following information during the reporting period:

1. The estimated total kilowatt hours supplied to the distribution system by Customer-generators and a description of the estimation methodology used;
2. The estimated total kilowatt hours that were delivered to Customer-generators through the distribution system;
3. The total number of Customer-generators that were paid for excess generation at the end of the Customer-generators' annualized periods; and
4. The total dollar amount that the Company paid to Customer-generators for excess generation at the end of the Customer-generators annualized periods, separated by month.

The interconnection report shall include the following information regarding Customer-generator facilities that interconnected with the distribution system for the first time during the reporting period, listed by type of renewable energy technology:

1. The number of Customer-generators that interconnected;
2. The estimated total rated generating capacity of all Customer-generator facilities that interconnected; and
3. The total cumulative number of Customer-generators that interconnected between June 15, 2001 and the end of the reporting period, including the Customer-generators in 1 above.

GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

CORPORATE BUSINESS TAX (CBT)

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), provision for the New Jersey Corporation Business Tax has been included in all customer charges, distribution charges and, where applicable, per luminaire charges applicable under this tariff. The energy tax reform statute exempts the following customers from the CBT provision, and when billed to such customers, the Base Tariff Rates otherwise applicable under this tariff shall be reduced by the provision for the CBT (and related New Jersey Sales and Use Tax) included therein:

- (1) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
- (2) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
- (3) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.

Filed pursuant to Order of the Board of Public
Utilities, State of New Jersey, dated May 12, 2010
in Docket No. ER09080668.

GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

SALES AND USE TAX (SUT)

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), as amended by P.L. 2006, c. 44, provision for the New Jersey Sales and Use Tax ("SUT") has been included in all charges applicable under this tariff by multiplying the charges that would apply before application of the SUT by the factor 1.07.

- (1) The energy tax reform statute exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable under this tariff shall be reduced by the provision for the SUT included therein:
 - (a) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
 - (b) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
 - (c) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.
 - (d) Agencies or instrumentalities of the federal government.
 - (e) International organizations of which the United States of America is a member.
- (2) The Business Retention and Relocation Assistance Act (P.L. 2004, c. 65) and subsequent amendment (P.L. 2005, c.374) exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable shall be reduced by the provision for the SUT included therein:
 - (a) A qualified business that employs at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process, for the exclusive use or consumption of such business within an enterprise zone, and

SALES AND USE TAX (SUT) (Continued)

(2) (Continued)

- (b) A group of two or more persons: (a) each of which is a qualified business that are all located within a single redevelopment area adopted pursuant to the "Local Redevelopment and Housing Law," P.L.1992, c.79 (C.40A:12A-1 et seq.); (b) that collectively employ at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process; (c) are each engaged in a vertically integrated business, evidenced by the manufacture and distribution of a product or family of products that, when taken together, are primarily used, packaged and sold as a single product; and (d) collectively use the energy and utility service for the exclusive use or consumption of each of the persons that comprise a group within an enterprise zone, and
- (c) A business facility located within a county that is designated for the 50% tax exemption under section P.L.1993, c.373 (C.54:32B-8.45) provided that the business certifies that it employs at least 50 people at the facility, at least 50% of whom are directly employed in a manufacturing process, and provided that the energy and the utility services are consumed exclusively at that facility.

A business that meets the requirements in (2)(a), (2)(b), or (2)(c) above shall not be provided the exemption described in this section until it has complied with such requirements for obtaining the exemption as may be provided pursuant to P.L.1983, c.303 (C.52:27H-60 et seq.) and P.L.1966, c.30 (C.54:32B-1 et seq.) and the Company has received a sales tax exemption letter issued by the New Jersey Department of Treasury, Division of Taxation.

SERVICE CLASSIFICATION RIDER (Continued)**

BUILDING UTILIZATION RIDER

Applicable To

Customers receiving service under Service Classification No. 2 or 7. This rider is not available to those customers taking high voltage distribution service.

Character of Service

Commitments for service under this provision will be made available to qualifying customers from January 1, 2014 until December 31, 2016. Customers must commence service hereunder within 24 months of the date of commitment.

Eligibility

Each customer will be required to sign an application for service under the Building Utilization Rider. The application must be submitted prior to leasing or purchasing vacant space. Upon verification of eligibility, the Company will approve the application and provide the customer with a written commitment for service hereunder.

To be eligible, a customer must lease or purchase space that has been vacant for a minimum of three months prior to such time as the customer submits an application for service hereunder, as determined by the Company. The total leased or purchased building space must equal or exceed 7,500 square feet.

To be eligible, the customer must operate a business therein which is classified by the North American Industry Classification System (1997 edition or supplements thereto) as Manufacturing (Sector 31-33), Wholesale Trade (Sector 42), Transportation and Warehousing (Sector 48-49), Information (Sector 51), Finance and Insurance (Sector 52), Real Estate, Rental and Leasing (Sector 53), Professional, Scientific and Technical Services (Sector 54), Management of Companies and Enterprises (Sector 55), Administrative, Support, Waste Management and Remediation (Sector 56).

To be eligible, the customer must qualify for, receive, and provide the Company with suitable documentation substantiating the receipt of a comprehensive package of economic incentives conferred by the local municipality or state authorities and including substantial financial assistance or a substantial tax incentive program designed to maintain or increase employment levels in the service area.

(Continued)

ISSUED: December 27, 2013

EFFECTIVE: January 1, 2014

ISSUED BY: Timothy Cawley, President
Mahwah, New Jersey 07430

Filed pursuant to Order of the Board of Public Utilities, State of New Jersey, date December 18, 2013 in Docket No. ET13070667.

GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

BUILDING UTILIZATION RIDER (Continued)

Eligibility (Continued)

To be eligible, the customer must be adding permanent full-time employees to their payroll at the site receiving service under the Building Utilization Rider. Relocation or consolidation of New Jersey based employees, without employment growth, will not qualify. By December 31 of each of the five years a customer receives service under this Rider, the customer shall submit to the Company, a letter detailing how many additional jobs it has added for that year and its current employee level. A customer failing to provide this information by December 31 of each year shall no longer be eligible for service under this Rider.

The Company shall not be obligated to approve additional applications in a calendar year if applications representing over 500,000 square feet of total leased or purchased building space have been accepted in such calendar year.

Credit

For the customer's newly leased or purchased space, as determined by the Company, a credit of 20 percent of the Customer Charge and Distribution Charges will be applied to the customer's monthly electric bills for 60 consecutive billing months.

Revenue Test For Facility Extensions

The Company shall implement the following revenue test to determine whether a customer must make a contribution toward the costs associated with any investment in facilities by the Company necessary to provide service to the customer.

(Continued)

ISSUED: June 23, 2011

EFFECTIVE: July 1, 2011

ISSUED BY: William Longhi, President
Saddle River, New Jersey 07458

Filed pursuant to Order of the Board of Public
Utilities, State of New Jersey, dated June 15, 2011
in Docket No. ET10110868.

GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

BUILDING UTILIZATION RIDER (Continued)

Revenue Test For Facility Extensions (Continued)

The cost and expense which the Company must bear shall be equal to four times the projected annual delivery revenue resulting from the customer's construction or expansion. Delivery revenue, for the purposes of this provision, shall be defined as revenue derived by the Company from the Customer Charge, Distribution Charges, and Transmission Charges of the customer's applicable service classification, less the Credit provided under this Rider and excluding New Jersey Sales and Use Tax and Transmission Surcharges. The customer must pay a lump sum charge, prior to the commencement of construction, for the installation of any Company facilities in excess of the amount described above.

The customer must provide, for a period of time equal to the startup period, as defined below, plus four years, financial security in the form of a performance bond or an irrevocable letter of credit, in a form and from a party reasonably acceptable to the Company, in the lesser of an amount equal to four times the projected annual delivery revenue resulting from the customer's construction or expansion or the cost of the facility extension.

The Company and the customer shall agree on a startup period, not to exceed twelve months, beginning on the date service commences hereunder. For each of the first four years after the end of the startup period, the Company shall compare the projected delivery revenue used in the above-referenced revenue test to actual delivery revenue received in the preceding year. If actual delivery revenue is less than projected delivery revenue, the Company shall notify the customer of such difference and the Company may call upon the performance bond and/or irrevocable letter of credit for such difference.

Limitations of Service

This service is not available to federal, state, county, or local government entities.

BUSINESS EXPANSION RIDER

Applicable To

Customers receiving service under Service Classification No. 2 or 7. This rider is not available to those customers taking high voltage distribution service.

Character of Service

Commitments for service under this provision will be made available to qualifying customers from January 1, 2014 until December 31, 2016. Customers must commence service hereunder within 24 months of the date of such commitment.

Eligibility

Eligible customers are those constructing new facilities or expanding existing facilities subject to the requirements of this Rider.

Each customer will be required to sign an application for service under the Business Expansion Rider. The application must be submitted prior to construction. Upon verification of eligibility, the Company will approve the application and provide the customer with a written commitment for service hereunder.

To be eligible, the area of the customer's newly constructed facility or expansion of an existing facility must equal or exceed 7,500 square feet.

To be eligible, a customer's newly constructed facility or expansion of an existing facility must be classified by the North American Industry Classification System (1997 edition or supplements thereto) as Manufacturing (Sector 31-33), Wholesale Trade (Sector 42), Transportation and Warehousing (Sector 48-49), Information (Sector 51), Finance and Insurance (Sector 52), Real Estate, Rental and Leasing (Sector 53), Professional, Scientific and Technical Services (Sector 54), Management of Companies and Enterprises (Sector 55), Administrative, Support, Waste Management and Remediation (Sector 56).
