Eligibility Requirements and Other Terms and Conditions

1. All individually metered residential O&R New York electric customers are eligible to apply regardless of their energy supplier. A rebate application only covers products at a single billing address. If you are applying for rebates for more than one address, please use a separate application for each.
2. Rebate applications must be completed in full, signed by the account holder and mailed to address stated on the application, together with a legible copy of the paid receipt in its entirety that indicates the equipment manufacturer, Energy Star model number, date of purchase and store name. Failure to complete this application in full may delay or disqualify your rebate. Applications must be postmarked by December 31, 2021. O&R shall not be responsible for lost, late, illegible or mis-directed mail. The most current version of the rebate application supersedes all previous versions.
3. Eligible equipment must be purchased and installed by December 31, 2021 to be eligible. O&R may conduct an on-site survey inspection or phone/mail survey.
4. Customer is not eligible to receive financial incentives and/or rebates for the same eligible equipment from NYSERDA and/or another electric or gas utility company.
5. If O&R determines that you are eligible for the rebate, please allow nine weeks after O&R's receipt of completed documentation and/or inspections for payments of approved rebates. Rebates will be paid by check directly to the O&R account holder.
6. Customer agrees and consents to O&R providing customer information, including but not limited to customer name, account number, electric consumption data, and electric energy savings to its third-party evaluation contractor for program evaluation purposes. The evaluation contractor is obligated to O&R to keep the customer information confidential. This information may also be provided by O&R to the New York State Public Service Commission. This information will be aggregated with information about other O&R customers.
7. Customer shall be responsible for all taxes that may be imposed with respect to the rebate offer.
8. Eligibility for the appliance rebates shall be determined by O&R at its sole discretion. O&R has no obligation to notify the customer in the event that O&R determines the customer is not eligible for an appliance rebate.
9. O&R reserves the right to limit quantities, and amend or terminate this rebate offer. Applications will be processed on a first-come, first-served basis until funds are depleted.
10. Limited Scope Review – The scope of review by O&R and the vendor and their inspector of the installation of the equipment is solely to determine whether rebates are payable. It does not include any safety or code review, and should not be relied upon as one.
