GENERAL INFORMATION

No. 2 DEFINITIONS

Unless otherwise stated, the following words and terms, when used in this tariff, shall have the following meanings:

(1) **Board** means the New Jersey Board of Public Utilities.
(2) **Company** means ROCKLAND ELECTRIC COMPANY.
(4) **Competitive Energy Supply** means Electric Power Supply provided by an Electric Generation Supplier other than the Company.
(5) **Delivery Service** means the service provided by the Electric Distribution Company (EDC) whereby a retail customer’s electric power supply is delivered from the border of the EDC’s service area to said customer’s facility within the EDC’s service area.
(6) **Electric Distribution Company (EDC)** means a public utility that owns electric distribution facilities. At times, this term is used to refer to the role of the Company as a deliverer of Competitive Energy Supply.
(7) **Electric Generation Supplier (EGS)** means an entity determined to be eligible by the Board to provide electric power supply to end-use customers. The terms “Electric Generation Supplier” and “Third Party Supplier” have the same meaning and are used interchangeably in this Rate Schedule.
(8) **Electric Power Supply** means the electricity required to meet customers’ needs, including energy, operating capacity, losses, ancillary services and installed capacity, including reserves required by the PJM Interconnection, L.L.C. (“PJM”) or New York Independent System Operator, transported to the Company's transmission and distribution system boundary, for subsequent delivery by the Company to its customers.
(9) **Retail Access** means a process whereby customers may purchase electric power supply from Electric Generation Suppliers and have it delivered using the Company's transmission and distribution system.
GENERAL INFORMATION

No. 2 DEFINITIONS (Continued)

(10) Third Party Supplier (TPS) means an entity determined to be eligible by the Board to provide electric power supply to end-use customers. The terms “Third Party Supplier” and “Electric Generation Supplier” have the same meaning and are used interchangeably in this Rate Schedule.

(11) Transition Period means the period of time commencing on August 1, 1999 and ending on July 31, 2003.

No. 3 APPLICATION FOR SERVICE

Forms for application for service may be obtained, signed and/or presented at any office of the Company or service may be obtained or discontinued by calling the following toll free number: 1-877-434-4100. Offices are maintained in the following locations:

One Lethbridge Plaza, Suite 32 – 2nd Floor, Route 17 North, Mahwah, New Jersey 07430
390 West Route 59, Spring Valley, New York 10977

The Company will provide the customer with a copy of the Customer Bill of Rights, by no later than at the time of the issuance of the customer's first bill, or within 30 days after the initiation of service, whichever is later.

The Company may require proof of identity with an application for service. The Company shall accept the following items to establish identity (although the Company, at its discretion, also may accept other documents):

1. A valid driver's license;
2. A birth certificate;
3. A valid U.S. passport;
4. A valid U.S. residency card with photograph;
5. A valid U.S. military identification card;
6. A valid county identification card;
7. A valid county welfare identification card;
8. A valid student identification card; or
9. A valid identification card issued by the State of New Jersey.

(Continued)
GENERAL INFORMATION

No. 3 APPLICATION FOR SERVICE (Continued)

The Company may require proof of prior address with an application for service. The Company shall accept the following items to establish prior address (although the Company, at its discretion, also may accept other documents):

1. A notarized lease, deed, or letter from the prior landlord;
2. A current auto insurance policy;
3. A bank statement;
4. A credit card statement; or
5. A letter of credit worthiness from a utility.

No. 4 DEPOSITS

The Company may require a reasonable deposit as a security for payment for service rendered in accordance with the Rules and Regulations of the Board. Upon closing an account, the Company shall refund to the customer the balance of any deposit remaining after the final bill for service has been settled, including any interest due. The Company will pay interest on customer deposits held to secure residential accounts at least once during each 12-month period in which a deposit is held. When the Company refunds a deposit or pays a customer interest on a deposit, the Company shall offer the customer the option of a credit to the customer’s account or a separate check.

No. 5 METERS

The Company will install meters in accordance with the provisions of N.J.A.C. 14:3-4.2. The Company will select the type and make of meters and associated equipment, and may, from time to time, change or alter such meters and associated equipment. The Company’s sole obligation is to supply metering that will furnish accurate and adequate records for billing purposes.

For the purpose of determining the amount of electricity delivered, meters shall be installed by the Company. Details of meter installation, location, and wiring are summarized in General Information Section Nos. 20, 21 and 22.

Service rendered through each meter installed shall be subject to a separate minimum charge and all rate provisions of the Service Classification applicable shall be applied separately to the service supply through each meter. The above shall not, however, apply where the Company, for purposes of testing or on account of the special character of the installation, desires to install more than one meter for measuring electricity supplied to a customer under one rate classification.
GENERAL INFORMATION

No. 6 METER READING

The Company will endeavor to read all meters at regular intervals as follows: meters of all customers will ordinarily be read monthly. Where the Company is unable to gain access to a meter, a notice stating this fact and requesting the customer to telephone his meter reading to the Company will be left on the premises. On request, the Company will furnish a postage paid business reply card for customers to report their meter readings.

No. 6A ADVANCED METER OPT OUT FEES

Any customer who requests that the transmitter of an AMI meter be disabled or requests an AMR or AMI meter be removed for a digital non-communicating meter will be classified as having opted out of AMI or AMR metering and will be required to submit an application and agreement with the Company.

Customers who opt out of AMI or AMR metering will be subject to the following.

(1) Access to Premises

Customers who opt out of AMI or AMR metering must provide reasonable access for meter reading and meter maintenance. If the customer fails to provide access for two months in a twelve-month period, then the customer will be required to: (a) relocate their metering equipment to an external location, at the customer’s expense; or (b) permit the Company to reinstall an AMR meter or enable the AMI meter transmitter feature.

(2) Manual Meter Reading Fee

A monthly fee of $15 will apply to any customer who: refuses to allow the Company to install an AMI or AMR meter; requests that the transmitter of an AMI meter be disabled; or requests that an AMR or AMI meter be removed.

(3) Meter Change Out Fee

(a) A one-time meter change out fee of $45 will apply for a customer who requests the change-out of an AMR or AMI meter less than 30 days prior to the AMR or AMI meter being initially installed or after such meter is installed.

(b) The meter change out fee will also apply to any customer who elects to switch back to AMI or AMR metering after requesting the removal of such meter.

(Continued)
GENERAL INFORMATION

No. 7  RENDERING OF BILLS

(1)  Rules Applicable to All Customers

Rates and charges are stated on a monthly basis as set forth in each Service Classification. The number of days in a billing period shall be dependent on the meter reading schedule and may vary from period to period because of holidays, Saturdays and Sundays. A monthly billing period shall consist of at least 26 and not more than 34 days.

In determining the charges for billing periods other than a monthly period, the rates as set forth in the Service Classifications shall be prorated on the basis of thirtieths of a monthly period.

Bills for residential service will be rendered monthly. Residential customers who formerly were billed bi-monthly will now be billed monthly. The Company shall continue to read the meters of those customers on a monthly basis and will render the interim bills, bills for which no meter readings are obtained, on the basis of estimated usage.

When the Company is unable to obtain meter readings on regular reading dates, bills are rendered (1) on readings by customers if said readings are received in time for billing, or (2) on estimated usage. Amounts billed on the basis of such estimates are subject to adjustment in accordance with the next meter reading obtained by the Company.

If low estimates result in a customer receiving an actual bill that is at least twenty-five percent greater than the prior estimated bill, the Company shall allow the customer to amortize the excess amount. The amortization will be in equal installments over a period of time equal to the period when no actual reading was taken by the customer or the Company.

(Continued)
GENERAL INFORMATION

No. 7  RENDERING OF BILLS (Continued)

(1)  Rules Applicable to All Customers (Continued)

When the Company estimates an account for four consecutive monthly billing periods, it shall mail a notice marked "IMPORTANT NOTICE" to the customer on the fifth month explaining that a meter reading must be obtained. Said notice will also explain the penalty for failure to complete an actual meter reading. After all reasonable means to obtain a meter reading have been exhausted, the Company may discontinue service provided at least eight months have passed since the last meter reading was obtained, the Board has been so notified and the customer has been properly notified by prior mailing. If service is disconnected and subsequently restored, the customer shall be liable for the reconnection charge as specified in General Information Section No. 11 of this tariff.

When, due to the absence of a customer, no readings are obtained, minimum monthly charges will be rendered under the following conditions:

(a)  When the customer gives written notification to the Company in advance that no electric service, in excess of that allowed under the minimum charge will be used following a given date and during a period of one or more months, and

(b)  When the customer agrees to notify the Company of customer's resumption of the use of service.

When the meter reading following such notice of resumption indicates a use of service, during the period in question, greater than the amounts allowed under the minimum charges, the Company reserves the rights to render a corrected bill in which the charge will be based on such service having been used in equal monthly amounts during the pertinent period, except upon customer proof that the excess current was used during a specific period.

In case any meter other than a meter found to be registering slow from any cause beyond the control of the customer, fails to register the full usage of service by the customer for any period of time, the usage of service by the customer may be estimated by the Company on the basis of available data, and the customer billed accordingly.

In cases where tampering and/or theft of service has been established, the customer shall pay to the Company all costs directly related to investigations and inspections; damage to or loss of the meter or other property of the Company; and billing of the unrecorded service. In the event service has been disconnected, such service will not be restored unless all above mentioned costs have been paid to the Company.

(Continued)
GENERAL INFORMATION

No. 7  RENDERING OF BILLS (Continued)

(2)  Retail Access Customer Billing Options

(a)  Customer Choice of Billing Option

A customer participating in the Company’s Retail Access Program may choose one of the following billing methods by purchasing electric power supply from a Third Party Supplier (“TPS”) that offers one or more of these options:

Utility Consolidated Bill: a single bill rendered by the Company for electric power supply provided by a TPS and delivery services provided by the Company (“Company Services”).

TPS Consolidated Bill: a single bill rendered by a TPS for the Company Services and the electric power supply provided by the TPS.

Two Separate Bills: separate bills rendered by a TPS and by the Company.

All TPSs participating in the Company’s Retail Access Program are eligible to provide consolidated billing service to their customers. In addition to fulfilling the eligibility requirements set forth in the TPS Agreement and the standards set forth in this Rate Schedule, to be a participating TPS in the Company’s Retail Access Program, a TPS wishing to offer billing services must execute a Third Party Supplier Customer Account Services Master Service Agreement with the Company and must comply with Board approved Electronic Data Interchange (“EDI”) standards.

(Continued)
GENERAL INFORMATION

No. 7  RENDERING OF BILLS (Continued)

(2)  Retail Access Customer Billing Options (Continued)

(b)  Utility Consolidated Billing Service

To be effective for the next cycle bill issued to the customer, at least 10 calendar days prior to a customer's scheduled meter read date, the TPS must provide the Company a rate per kWh ($/kWh) to be charged to each of its customers for electric power supply. Rates must include all applicable Sales and Use Tax imposed on the TPS and not required by law to be separately stated. The TPS may charge a different price per kWh for each of its customers. The customer shall be billed one rate per billing cycle and such rate will be used for billing purposes for subsequent bills until changed by the TPS.

(c)  TPS Consolidated Billing Service

Billing Services Credit: customers who choose the TPS Consolidated Billing Service will receive a monthly credit adjustment to their Company Charges of $1.00 per monthly billing cycle, including Sales and Use Tax. The credit shall be issued only in circumstances when the account is no longer receiving a bill issued by the Company. If, for any reason, the Company is required by the Board or requested by the TPS to conduct any mailing related to Company Services, including but not limited to Board mandated notices, New Jersey Administrative Code requirements or other regulatory requirements, the customer credit will be $0.50 per monthly billing cycle, including Sales and Use Tax.
No. 8 BUDGET BILLING

Residential customers, customers who are a condominium association or a cooperative housing corporation and customers taking service under Special Provision B of Service Classification No. 2 or Special Provision A of Service Classification No. 7, unless otherwise prohibited, may, at their option, elect to pay for service taken in accordance with the Board’s regulations and the following provisions:

1. The customer will make equal monthly payments during the Budget Year based on the Company’s estimate of the customer’s total cost for the Budget Year; and

2. If at the end of the Budget Year, the amount paid by the customer is less than the amount due for actual service rendered, the Company shall bill the customer the balance, in addition to the monthly payment amount due in the last billing period of the Budget Year; or

3. If at the end of the Budget Year, the amount paid by the customer is greater than the amount due for actual service rendered, the Company shall apply a credit to the customer’s account equal to the amount overpaid or, at the customer’s request, shall refund an amount equal to the overpayment.

The Budget Year will be the twelve-month period beginning with the billing month the customer initially enrolls in budget billing.

The monthly budget payment will normally be adjusted at the end of the Budget Year to reflect any changes in the Company’s charges or the customer’s usage during the Budget Year. The Company shall notify customers in writing of the revised budget amount at least ten working days prior to the due date of the initial bill of the next Budget Year. The Company also may adjust the monthly budget payment one time during the Budget Year should the Company’s analysis indicate a change of twenty-five percent or more is warranted because of changes in rates or consumption.

Should a customer fail to make a monthly budget payment when due, the Company shall have the right to terminate the budget billing plan. A customer shall have the right to terminate budget billing at any time. Upon termination by the Company or customer, any overpayment will be credited to the customer’s account and any deficiency shall be due and payable.
GENERAL INFORMATION

No. 9  CUSTOMER OBLIGATION

A customer wishing to discontinue service shall give notice to the Company. Within 48 hours of the customer’s notice, the Company will discontinue service or obtain a meter reading for the purpose of calculating a final bill. When such notice is not received by the utility, the customer will be liable until the final reading of the meter is taken. A notice to discontinue service does not relieve a customer from any minimum or guaranteed payment under any contract or rate.

No. 10  PAYMENT OF BILLS, CHARGE FOR LATE PAYMENT, AND CHARGE FOR DISHONORED PAYMENT

Bills are due when rendered. If the bill is not paid within fifteen days after the postmark date of the outstanding bill, the Company may issue a notice of discontinuance and service may be discontinued in accordance with provisions of General Information Section No. 11. A late payment charge at the rate of one and one-half percent (1½%) per month shall be applied to the accounts of all non-residential customers, except for state, county, and municipal agencies. The charge shall be applied to all amounts billed, including arrears, and any unpaid late payment charges that are not received by the Company when the next regular bill is calculated. The charge will not be applied sooner than 25 days after a bill is rendered.

Should the Company receive a negotiable instrument from the applicant or customer in payment of any bill, charge or deposit due, and such instrument be subsequently dishonored or be uncollectible for any reason, the Company shall charge the applicant a fee of $7.00.
GENERAL INFORMATION

No. 11 REFUSAL OR DISCONTINUANCE OF SERVICE

The Company reserves the right to refuse or discontinue service under the following conditions:
(a) If any bills for electric service or for charges in line extension contracts are more than three months in arrears and/or arrearage is more than $100.00. (b) If it shall deem such action necessary to protect itself from fraud. (c) If the customer fails to comply with the Company’s rules and regulations. (d) If the installation is not in accordance with the National Electrical Code, or the customer fails to supply, at his expense, a proper certificate of compliance with such code issued by an inspection agency prescribed by law. (e) Where a private line is improperly maintained or is inadequate for the purpose for which it is being used. (f) If all facts establish with reasonable certainty that the meter or service laterals or any part of the same, have been tampered with, in any manner which affects the proper operation of the same or the registering on the meter of the full amount of the electricity consumed.

If a residential customer offers payment of the full amount or a reasonable portion of the amount due at the time of discontinuance, a Company representative shall accept payment without discontinuance of service. Whenever such payment is made, the Company representative shall provide the customer with a receipt showing the date, account number, customer's name and address and amount received.

For failure to pay a bill within the period referred to in General Information Section No. 10, service may be discontinued after ten (10) days' written notice. In case of bankruptcy or fraud, or where it is clearly indicated that the customer is preparing to leave, immediate payment of accounts may be required.

If a residential customer advises the Company that the customer wishes to discuss a deferred payment agreement because the customer is presently unable to pay a total outstanding bill and/or deposit, the utility shall make a good faith effort to provide the customer with an opportunity to enter into a fair and reasonable deferred payment agreement. If the customer defaults on any of the terms of the agreement, the Company may discontinue service after providing the customer with notice of discontinuance.

The Company will not discontinue service during the period from November 15 through March 15, unless otherwise ordered by the Board, to certain residential customers identified in regulations regarding Winter Termination Program for Residential Electric and Gas Service.
GENERAL INFORMATION

No. 11 REFUSAL OR DISCONTINUANCE OF SERVICE (Continued)

When service to a meter is discontinued for any of the above reasons, the Company will restore service after the customer:

(1) Pays all amounts due the Company for any service previously rendered, and

(2) Pays a $28.00 reconnection charge.

In the event that service is discontinued pursuant to the provisions of this section, the Company may require a deposit, but shall not require the deposit prior to service restoration. Instead, the Company shall bill the customer for the deposit, and shall allow the customer at least 15 days after the billing for payment of the deposit, or shall make other reasonable payment arrangements with the customer.

No. 12 CHANGE OF RATE

Rate Service Classifications under which customers are served are subject to such changes as may be lawfully made.

No. 13 INTERRUPTION OF SERVICE

The Company endeavors to furnish adequate and reliable service but shall not be liable for, or in any way in respect of, any interruption, discontinuance or reversal of its service, due to causes beyond its control.

No. 14 ACCESS TO CUSTOMER’S PREMISES

The Company’s authorized employees or agents shall have free access, at all reasonable times, to its meters or other property, and to all the wiring and equipment owned by the customer or anyone else, and installed on the customer’s premises, for the purpose of inspecting or testing the same or to repair, change, or remove any of the Company’s property.
GENERAL INFORMATION

No. 15 IDENTIFICATION OF EMPLOYEES

Company employees or agents authorized to enter upon its customers’ premises are provided with photo identification cards. Customers are advised not to admit to their premises anyone claiming to represent the Company unless he is wearing the proper photo identification card.

No. 16 COMPANY PROPERTY

The customer shall exercise reasonable diligence in protecting the Company’s property on his premises, and may be liable to the Company in case of loss or damage caused by his negligence or that of his employees.

The customer shall not disconnect, change connections, make connections or otherwise interfere with Company’s meters or other property or permit same to be done by other than the Company’s authorized employees.

All wiring, meters, etc., installed at the Company’s expense shall remain its property and the Company may remove the same when service is terminated.

No. 17 EXTENSION OF LINES AND FACILITIES

(1) Definitions

For the purpose of General Information Section Nos. 17 and 18 only, the following words and terms shall have the following meanings:

(a) Applicant for An Extension means a person that has applied to the appropriate regulated entity, as defined at N.J.A.C. 14:3-1 for construction of an extension, as defined at N.J.A.C. 14:3-8.2.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(1) Definitions (Continued)

(b) Cost means, with respect to the cost of construction of an extension, the site specific costs calculated based on unitized costs for materials and labor (including both internal and external labor) employed in the design, purchase, construction, and/or installation of the extension, including overhead directly attributable to the work, as well as overrides or loading factors such as those for mapping and design. This term does not include expenses for clerical, dispatching, supervision or general office functions. The unitized costs shall be those set forth in Appendix A to General Information Section 17.

(c) Customer means the person identified in the account records of the Company as the person responsible for payment of the bill. A customer may or may not be the end user, as defined below.

(d) Distribution Line means an electric line used to distribute electric energy which will or, in the sole opinion of the Company, may reasonably be expected to provide service to more than one customer.

(e) Distribution Revenue means the total revenue, plus related Sales and Use Tax, collected by the Company from a customer, minus the following, as applicable: For an electric public utility, as defined at N.J.A.C. 14:4 – 1.2, Basic Generation Service charges, plus Sales and Use Tax on the Basic Generation Service Charges, and, unless included with the Basic Generation Service Charges, transmission charges derived from the Federal Energy Regulatory Commission (“FERC”) approved Transmission Charges, plus Sales and Use Tax on the transmission charges, assessed in accordance with the Company’s tariff.

(f) End User means a person who receives electricity service. An end user may or may not be a customer, as defined above.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(1) Definitions (Continued)

(g) Extension means the construction or installation of plant and/or facilities by the Company* to convey service from existing or new plant and/or facilities to one or more new customers, and also means the plant and/or facilities themselves. This term includes all plant and/or facilities for transmission and/or distribution, whether located overhead or underground, on a public street or right of way, or on a private property or private right of way, including the wire, poles or supports, cable, pipe, conduit or other means of conveying service from existing plant and/or facilities to each unit or structure to be served, except as excluded in 1 and 2 below. An extension begins at the existing infrastructure and ends as follows:

(1) For an overhead extension, the extension ends at the point where the Service Line connects to the building, but also includes the meter.

(2) For an underground extension, the extension ends at, and includes the meter; unless the applicant and the Company make other arrangements.

* See General Information Section No. 19, “Service Lines”, for Company and customer responsibilities for the installation of Service Lines.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(1) Definitions (Continued)

(h) Person means an individual, firm, joint venture, partnership, co-partnership, corporation, association, State, county, municipality, public agency or authority, bi-state or interstate agency or authority, public utility, regulated entity, cable television company, cooperation association, or joint stock association, trust, limited liability company, governmental entity, or other legal entity, and includes any trustee, receiver, assignee, or personal representative thereof.

(i) Plant and/or facilities means any machinery, apparatus, or equipment, including but not limited to, wires, cables, substations, poles or other supports, transformers, and switches, used for transmission or distribution of electricity. This term includes service lines and meters, but does not include equipment used solely for administrative purposes, such as office equipment used for administering a billing system.

(j) Regulated Entity means a person or entity that is subject to the jurisdiction of the Board, or that provides a product or service subject to the jurisdiction of the Board. This term includes a public utility, as defined in N.J.A.C. 14:3-1.1.

(k) Residential Customer means a customer who receives electricity service for use in his or her residence.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(1) Definitions (Continued)

(l) Residential Subdivision means a tract of land divided into three or more lots, as approved by the appropriate authorities, for the construction of three or more new residential buildings, or the land on which new multiple occupancy buildings are to be constructed.

(m) Service Line means an electric line used to connect a distribution line to an individual customer's meter or point of attachment; a service line, at the Company's discretion, may be connected to two or more meters at a single premises.

(Continued)
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(2) Scope and Applicability

This section governs the construction of an extension to provide service to a customer, except that this section does not apply to any extension or any portion of an extension that is regulated by the FERC. This section applies to the construction of extensions to provide service to all customers, whether residential or non-residential.

This section includes provisions related to: (a) how much of an extension is paid by the customer for the extension; (b) whether the Company requires a deposit or non-refundable contribution; and (c) how much of a deposit, if required, will be refunded to the customer, and on what schedule that refund will be made.

This section also includes provisions regarding whether an extension shall be placed overhead or underground.

The Company shall not construct an extension or portion thereof if the extension is not required under N.J.S.A. 48:2-27 or other applicable law.

(3) General Requirements to Provide Extensions

To obtain service to one or more new customers, a person shall complete and submit to the Company a signed application for the construction of an extension of the Company's lines and facilities. Prior to accepting the application, the Company shall provide the applicant with a copy of N.J.A.C. 14:3-8 "Extensions to Provide Regulated Services". At the time of submittal of an application for an extension, the Company shall obtain from the applicant a signed certification that the applicant received a copy of N.J.A.C. 14:3-8 "Extensions to Provide Regulated Services".
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(3) General Requirements to Provide Extensions (Continued)

If an applicant for an extension has met all the requirements in this section, the Company shall install the requested extension in accordance with this section. The Company shall not construct an extension or furnish service to any customer unless all applicable requirements of this section have been met, unless otherwise ordered to do so by the Board.

The Company shall not construct, own, operate or maintain an extension on any property unless the Company is legally authorized to do so by an easement or right-of-way in a form reasonably acceptable to the Company. The applicant shall ensure that the Company is provided with such legal authority, at no cost to the Company and with no requirement for condemnation of the property.

In constructing and operating an extension, the Company shall use equipment and practices that meet all applicable requirements for line extensions, and which are consistent with applicable industry best practices and standards and the Company’s minimum system design standards. An applicant may request equipment or service that exceeds these standards. If the Company provides this excess equipment or service, the Company may charge the applicant for the full cost of the excess facilities requested by the applicant.

The Company shall construct an extension with sufficient capacity to provide safe, adequate, and proper service to customers, in accordance with the Company’s and/or the industry’s system design standards.

(4) General Provisions Regarding Extensions

Where an extension is required to provide service to one or more new residential or nonresidential customers, the procedures set forth in this section shall be utilized as a guide to determine the Company’s and the applicant’s cost responsibility for construction of such extension. This section also includes provisions regarding deposits and nonrefundable contributions in aid of construction (“CIAC”), which may be required of the person applying for such extension to ensure adequate compensation for the Company’s investment to supply service. An extension shall become the property of the Company upon its completion.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(4) General Provisions Regarding Extensions (Continued)

The estimated cost of an extension for which the Company receives a deposit, or receives a non-refundable contribution, shall include the tax consequences incurred by the Company as a result of receiving deposits or CIAC under the Tax Reform Act of 1986 ("TRA 86"). All deposit refunds shall also include the associated tax consequences incurred under TRA-86 as detailed in N.J.A.C. 14:3-8.6. Deposits are non-interest bearing.

All parties to an extension shall cooperate fully in order to facilitate construction of an extension at the lowest reasonable cost consistent with system reliability and safety. This includes sharing trenches where practicable, and coordinating scheduling and other aspects of construction to minimize delays and to avoid difficult conditions such as frozen or unstable soils.

The Company may contract with an applicant to design, purchase, construct or maintain an extension on behalf of the applicant. The Company shall be paid for the cost of constructing or installing an extension on behalf of an applicant in accordance with this section.
No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(5) Deposits - General Provisions

An applicant may be required to provide the Company with a deposit prior to the construction of an extension. The amount of the deposit shall be determined according to the deposit provisions set forth below. The Company shall refund the refundable portion of a deposit in accordance with the provisions set forth below.

For purposes of determining the amount of the deposit, the following shall apply:

(a) The Company shall determine the cost of the extension in accordance with General Information Section 17, and shall add to this the tax consequences incurred by the Company under TRA-86 as a result of receiving the deposit as detailed in N.J.A.C. 14:3-8.6. All deposit refunds shall also include the associated tax consequences incurred under TRA-86 as detailed in N.J.A.C. 14:3-8.6;

(b) The Company shall assume that the electric service connection to each building will be at the nearest corner of the building to the point at which the service enters the property;

(c) If an applicant requests service that costs more than that which is standard under the Company's and/or the industry's system design standards, or if an extension presents an unusual situation in which providing standard service is substantially more expensive than usual, the Company may charge the applicant or the customer for the extra expense. In accordance with (a) below, this charge is not refundable. In such a case, the Company shall not charge the applicant more than the actual cost for the extra work required; and
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(5) Deposits - General Provisions (Continued)

(d) If the extension requires the Company to pay an attachment charge for the use of utility poles located on private property and not owned by the Company, the Company may include the cost of the attachment charge when calculating the cost of the extension.

The following portions of a deposit are nonrefundable and shall constitute a contribution in aid of construction (CIAC):

(a) For all extensions, the cost of extra service, or of extra work required to provide standard service, in accordance with N.J.A.C. 14:3-8.9(d) 3; and

(b) For an underground extension of electricity, the additional cost for underground service over and above the amount it would cost to serve those customers overhead. This shall include the cost of any temporary overhead installation.

(6) Deposits

The requirements in this subsection apply in addition to the requirements in the subsection “Deposits – General Provisions”. This subsection addresses how a deposit will be determined and how the refundable portion of a deposit will be determined for extensions serving multi-unit or non-residential developments and for extensions serving a single residential customer.

(a) Multi-unit Development or Non-residential Customer

This subsection is applicable to multi-unit developments and non-residential customers. The deposit for extensions under this subsection shall be the cost of the extension required to provide service. Prior to construction of the extension, the Company shall notify the applicant of the cost to construct an extension to serve the customer or development for which service is requested.

The cost responsibility of an extension shall be determined by mutual agreement between the Company and the applicant. If the Company and the applicant cannot agree upon a financial arrangement regarding the cost of the extension, the cost of the extension and the refund of the refundable portion of the deposit shall be in accordance with this General Information Section 17.

(Continued)
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(6) **Deposits** (Continued)

(a) **Multi-unit Development or Non-residential Customer** (Continued)

For purposes of calculating the amount of the deposit, the development for which service is requested shall be determined by reference to the subdivision map approved by the applicable local authorities. If a development is to be approved and constructed in phases, the applicant shall indicate which phases are to be treated as separate developments for purposes of determining the deposit.

As each customer served by the extension begins receiving service, the Company shall refund to the applicant such customer’s refundable portion of the deposit. The refund shall be the estimated annual distribution revenue that will result from the customer multiplied by ten. In no event shall the Company refund more than the refundable portion of the deposit nor shall the Company refund any portion of the refundable portion of the deposit remaining after ten years from the date upon which the Company is first ready to render service from the extension.

(b) **Single Residential Customer**

This subsection is applicable where the extension is constructed to serve a single residential customer. The applicant shall be required to make a deposit, which shall be determined as follows:

(1) The Company shall estimate the cost of the extension required to provide service to the customer.

(2) The Company shall estimate the annual distribution revenue to be derived from the customer, and multiply it by ten, to obtain estimated distribution revenue over a ten-year period.
GENERAL INFORMATION

No. 17 EXTENSION OF LINES AND FACILITIES (Continued)

(6) Deposits (Continued)

(b) Single Residential Customer (Continued)

(3) The Company shall subtract the estimated ten-year distribution revenue determined under (6)(b)(2) above, from the refundable portion of the estimated cost of the extension. The refundable portion of the estimated cost of the extension shall be determined in accordance with the subsection “Deposits – General Provisions”. The remaining amount shall be held by the Company as a deposit.

If during the ten-year period after a single residential customer begins receiving service, additional customers connect to the extension and begin receiving service, the Company shall refund to the initial customer on whose behalf the Company holds a deposit, an amount equal to ten times the distribution revenue to be derived from the additional customers.

In no event shall the Company refund more than the refundable portion of the deposit nor shall the Company refund any portion of the refundable portion of the deposit remaining after ten years from the date upon which the Company is first ready to render service from the extension.

GENERAL INFORMATION

No. 18 UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS

The Company will provide the necessary electrical materials, design plans and specifications for the installation of underground primary voltage electric lines between its existing facilities along the public way and the customers point of use.

(1) Applicability

This General Information Section No. 18 is applicable only to service to new buildings or complexes or to existing buildings or complexes with increased electrical capacity taking primary service or requiring at least 400 ampere secondary service. The Company may, at its sole discretion and if circumstances warrant, apply this section to a secondary service less than 400 amperes.

(2) Definitions

The following definitions shall apply for the purposes of this General Information Section No. 18.

(a) Applicant - The developer, builder, or other entity applying for the construction of an underground electrical system.

(b) Building - A structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts.

(c) Complex - More than one attached or detached buildings erected on a single or several contiguous parcels of land and not separated by a public street or right of way.

(d) Project - A building or complex of buildings together with the associated onsite improvements.

(e) Underground electrical system - The underground primary voltage distribution lines and primary voltage service lines in a project.
GENERAL INFORMATION

No. 18 UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS (Continued)

(3) Customer Obligation

(a) Each applicant for underground service under this section shall supply to the Company:

(1) A copy of a site plan for the project, which has received all final governmental approvals.

(2) An acceptable easement on the form provided by the Company, together with such assurance of title as the Company may require.

(3) An application and agreement for electric service to the project on appropriate forms provided by the Company, executed by the applicant or its authorized representative.

(4) Such security for electric service as may be required by the applicable tariff and otherwise comply with all other applicable provisions of the Company's tariff.

(5) The name and qualifications of the applicant's electrician who will make the installation of the underground electrical system.

(6) Indemnification and Certificates of insurance as required by the Company.

(b) The applicant will, at its cost, provide all trenching and backfilling, all installation work and all other work necessary to install the underground electrical system, using materials supplied by the Company, in conformity with the design plans and specifications furnished by the Company. The applicant may be required to pay for such material in accordance with Section (5) below. The construction of the extension located on the property to be served shall be by either the Company or the applicant, at the applicant's discretion. Should the applicant choose to perform the construction, then the applicant will arrange for and permit inspection of the installation by representatives of the Company at appropriate stages of construction and will, upon request of a representative of the Company, make all corrections necessary in order that the installation will comply with the design plans and specifications and with all applicable electrical codes.
No. 18 UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS (Continued)

(3) Customer Obligation (Continued)

(c) The customer will use the materials furnished by the Company in accordance with Subparagraph (4) (b) solely for the purpose of constructing the underground electrical system in the project. The applicant will furnish all materials needed for the completion of the underground electrical system beyond the materials to be furnished by the Company pursuant to Subparagraph (4) (b).

(4) Company Obligation

(a) The Company will provide to the applicant design plans and specifications for the underground electrical system for a project actually under construction or for any existing project in which electrical capacity is being increased. If the Company does not have suitable existing facilities upon the public street or right of way abutting the project, an extension from suitable existing facilities to a point abutting the project shall be made by the Company only in accordance with other applicable portions of this tariff and nothing in this section shall be deemed a variation therefrom.

(b) The Company will furnish to the applicant all materials needed to construct the underground electrical system in accordance with the design plans and specifications furnished by the Company should the applicant choose to construct the extension.

(c) If the installation of the underground electrical system has not been completed by the applicant within six months from the date upon which the materials, design plans and specifications are furnished to the applicant (unless an extension is granted by the Company) the work shall be deemed to have been abandoned and the Company, at the applicant's expense, may reclaim possession of any and all materials, whether or not installed. The applicant will reimburse the Company for all cost and expenses incurred by the Company in the performance of its obligation to the applicant under this section and of the reclaiming of the materials, less the actual salvage value of any materials reclaimed; any payment made to the Company for extension of its distribution lines from existing facilities to a point abutting the project shall be retained by the Company.

(Continued)
GENERAL INFORMATION

No. 18 UNDERGROUND EXTENSIONS OF LINES AND FACILITIES TO CUSTOMERS WITH NEW OR INCREASED CAPACITY INSTALLATIONS (Continued)

(4) **Company Obligation** (Continued)

(d) Upon completion of the installation (including testing) in accordance with the design plans and specifications, approval of the installation by the Company and delivery to the Company of satisfactory evidence that there are no unpaid claims for labor or material furnished to the applicant (whether or not a lien has been acquired with respect to such claim), the Company will accept ownership of the underground electrical system and thereafter be responsible for the operation, maintenance and repair thereof.

(5) **Applicant Contribution for Materials**

The Company will make no charge for the materials if the estimated Distribution Revenue to the Company from the project for the first ten full calendar years following completion of the installation of the underground electrical system is equal to or exceeds the cost of the materials. Any portion of the cost which is in excess of ten times such Distribution Revenue will be paid by the applicant before any material or services will be supplied by the Company. If an overhead or underground line extension is required to extend existing facilities to a point abutting the project, the Distribution Revenue, for the purposes of this subparagraph, shall mean only that Distribution Revenue in excess of the amount of Distribution Revenue which is required to obligate the Company to pay for the line extension.
GENERAL INFORMATION

No. 19 SERVICE LINES

The terms “Service Line”, “Distribution Line” and “Residential Subdivision”, as defined in General Information Section No. 17, shall apply to this section.

(1) Overhead Service Lines

The Company will construct and maintain all overhead service lines from its distribution lines adjacent to a customer’s premises to the service entrance of the building or structure where service is to be metered.

(2) Underground Service Lines

(a) Residential Underground Service Lines

(1) Within a Residential Subdivision, the Company shall install the underground Secondary voltage Service Line from its Distribution Line to the customer’s metering point. The Company shall own and maintain the Service Line.

(2) Outside of a Residential Subdivision, either the Company or the customer, at the customer’s discretion, shall install the underground Secondary voltage Service Line from the Company’s Distribution Line to the customer’s metering point. The customer shall own and maintain the Service Line; however, for an extension of service to a one- or two-family residence, the Company shall own and maintain the Service Line.

(3) Primary voltage Service Lines shall be installed in accordance with General Information Section No. 18.

(b) Non-Residential Underground Service Lines

(1) Secondary voltage Service Lines shall be installed by the customer from a Company-designated point of connection to the customer’s meter. The customer shall own and maintain the Service Line.

(2) Primary voltage Service Lines shall be installed in accordance with General Information Section No. 18.

The customer, at his own expense, in advance of the construction of Company facilities on the customer’s property, shall provide to the Company all necessary easements and rights of way to enable the Company to construct and maintain its facilities.
GENERAL INFORMATION

No. 20 LOCATION OF SERVICE WIRES, METER, ETC.

Upon application to the Company, it will send a representative who will designate by suitable marker the proper entrance and meter location for service to be furnished. Such meter location shall be maintained by the customer in such manner as to be readily accessible to the Company representatives and kept free from excess vibration.

No. 21 OUTDOOR METERING

(a) The Company shall require all new residential dwellings to be provided with facilities supplied by the customer to accommodate outdoor metering equipment. Indoor location of meter(s) for new residential service will be approved only when there is no suitable place outside to set the meter(s). When indoor meter location(s) are approved and utilized, free access by Company representatives to the meter(s) at all reasonable times shall be possible.

(b) The cost of all facilities required for the meter(s) shall be borne by the customer.

No. 22 WIRING, APPARATUS AND INSPECTION

All wiring and apparatus including service switches, fuses, meter loops and a proper location and support for the Company’s meter and other apparatus shall be furnished and maintained by the customer in accordance with the Wiring Rules and Regulations of the Company, the National Electrical Code of the National Board of Fire Underwriters, all laws and governmental regulations that may be in force, and it shall be a condition precedent to the initial and continuing supply of electricity by the Company that the Company may seal such service and meter-switch and adjust, set and seal such switches, and that such seals shall not be broken and that such adjustments or settings shall not be changed or in any way interfered with by the customer.

The Company reserves the right to make an inspection of the premises before connecting service wires or installing meter in order to see that its rules are complied with, but in doing this, assumes no liability for the safety of the installation. The Company shall conduct an initial inspection of the premises at no cost to the applicant. If the installation is not in compliance with the Company's and/or other applicable rules, service shall not be rendered and the Company shall assess a re-inspection fee of $68.00 for any subsequent re-inspections of the installation.
GENERAL INFORMATION

No. 23 PERMITS AND INSPECTION FEES

The Customer must secure and pay for all permits, municipal or otherwise, required by Law for the installation and operation of the electrical wiring and equipment on the premises.

No. 24 ELECTRICAL INSPECTION AUTHORITIES

The customer must provide the Company with an electrical inspection certificate indicating that the customer’s service installation complies with applicable codes prior to commencement of service. Such certificate must be issued by the local municipal code official; a state or county agency; or any other agency authorized to perform such function and services as may be designated and approved by the Board.

No. 25 RIGHTS OF WAY AND TREE TRIMMING RIGHTS

The furnishing of service is contingent upon the Company’s ability to secure and maintain rights of way and suitable tree trimming rights under terms and conditions acceptable to the Company, and the Company shall not be required to supply electric service until a reasonable time after such rights have been obtained.
GENERAL INFORMATION

No. 26 INCREASED CAPACITY

Reasonable notice in writing must be given by the Customer to the Company before adding additional equipment. If an upgrade of existing customer-owned service entrance equipment is necessary due to increased load or building expansion ("service upgrade"), such notice shall state the amount, character and expected duration of time the increased service will be required.

Service upgrades shall be performed by licensed electrical contractors in compliance with the National Electric Code, Company Specifications For Electric Installations, and any other applicable federal, state or local regulations governing such installations.

If a service upgrade necessitates additional or enlarged Company facilities, and existing Company facilities have been in place for ten years or more, the Company shall apply the following rules:

1) Residential Service Upgrades

   a) Overhead Service

      The Company shall upgrade its existing overhead Service Line, as necessary, at no cost to the customer.

   b) Underground Service

      1) Within a Residential Subdivision, the customer, or its qualified contractor, at the customer’s expense, shall dig the required trench in accordance with Company specifications. The Company shall install the new underground service line at no cost to the customer.

      2) Outside of Residential Subdivisions, the customer, or its qualified contractor, at the customer’s expense, shall install the new underground service from the customer’s service entrance equipment to a connection point on the Company’s Distribution Line, as determined by the Company. The Company shall connect the customer’s service line to the Company’s Distribution Line at no cost to the customer.

(Continued)
No. 26 INCREASED CAPACITY (Continued)

(2) Non-Residential Service Upgrades

(a) **Overhead Service**

The Company shall upgrade its existing overhead Service Line, as necessary, at no cost to the customer.

(b) **Underground Service**

The customer, or its qualified contractor, at the customer's expense, shall install the new underground service from the customer's service entrance equipment to a connection point on the Company's Distribution Line, as determined by the Company. The Company shall connect the customer's service line to the Company's Distribution Line at no cost to the customer.

The rules of General Information Section No. 18 shall apply to qualifying customers.

(3) The following conditions shall be considered Extensions and the rules of General Information Section No. 17 shall apply.

(a) the customer requests a change in voltage characteristics (e.g., single phase to three phase, 120/208V to 277/480V); or

(b) a change to a Company Distribution Line is necessary in order to provide a connection point for the customer's new service.

(Continued)
GENERAL INFORMATION

No. 26 INCREASED CAPACITY (Continued)

(4) The following conditions shall be considered Extensions and the rules of General Information Section No 17 shall apply:

(a) an existing non-residential structure has been demolished or substantially demolished and a new structure is being built in its place;

(b) an existing residential structure has been demolished or substantially demolished and a new structure, having a square footage greater than three times the square footage of the original structure, is being built in its place; or

(c) there has been a change in the use of a residential facility or in the type of business conducted at a non-residential facility.

If a service upgrade necessitates additional or enlarged Company facilities, and existing Company facilities have been in place for less than ten years, the Company shall install such additional or enlarged facilities at the customer’s sole expense.
**GENERAL INFORMATION**

No. 27 MASTER METERING

The service and supply of electrical energy by the Company for use of owners, tenants or occupants of apartment buildings, or other tenant buildings, will be furnished directly to them as Customers of the Company through Company individual meters, and will not be supplied through a master meter for submetering or resale by or to any owner, tenant or occupant of any such building.

In any case where the Board would permit master metering or submetering of residential use in any new building or complex of buildings connected on or after March 15, 1984, any new such building or complex of buildings with electric resistance space heating equipment will not be provided service unless one of the following conditions is met:

1. The electric resistance heating equipment is supplementary to a heat pump system, energy storage system, or a system for which a renewable resource is the primary energy input, or

2. The customer establishes that heat requirements will be seasonal in nature and, thus, electric resistance is the most economic heat source for the customer.

No. 28 UNMETERED SERVICE

Where the Customer’s only utilization equipment has a total rated capacity of not more than 2 KW at any one location and is operated on a fixed schedule and has a definitely determinable demand, the Company may supply unmetered service at the applicable Service Classification rates and charges, upon the basis of the usage determined by the Company and endorsed upon the agreement for service. The Customer shall give the Company advance notice in writing of any change in the utilization equipment or in use of service supplied on an unmetered basis. Unmetered services will not be supplied to any location where the Customer is supplied with metered service. The Company reserves the right at any time to meter service previously supplied on an unmetered basis.

No. 29 CHARACTERISTICS OF SERVICE

In addition to the provisions hereof, service of particular characteristics is available only when such service is specified under “Character of Service” in the Service Classification under which service is supplied, and subject to the provisions of such Service Classification.

(Continued)
GENERAL INFORMATION

No. 29 CHARACTERISTICS OF SERVICE (Continued)

(1) Secondary Service – Sixty cycle single and three phase (low tension) generally will be supplied from the three phase four wire 120/208 volt system which the Company is gradually extending. Otherwise in limited areas single phase service will be supplied at 120/240 volts and three phase four wire service at 120/240 volts. In those areas where it is available three phase service will be supplied at 277/480 volts.

(2) Primary Service – Sixty cycle three phase (high tension) service at 2400/4160 Volts Wye, 7620/13200 Volts Wye, 34500 Volts Delta, and in limited areas 2400 or 4800 Volts Delta as designated by the Company. This service will be supplied at the discretion of the Company as warranted by the magnitude of the load, its location or other physical conditions.

(3) High Voltage Distribution Service – Sixty cycle three phase (high tension) service at 69000 Volts or higher as designated by the Company. This service will be supplied at the discretion of the Company as warranted by the magnitude of the load, its location or other physical conditions.

All equipment and apparatus necessary to change the frequency and/or voltage and/or other characteristics of the electricity furnished by the Company to conform to the requirements of the Customer shall be furnished and maintained by the customer.

Where three phase service is supplied the Customer shall balance the current on each of the phases in a manner satisfactory to the Company.

Where the Company cannot be assured that the business to be served will be permanent or where unusual expenditures are necessary to supply service because of the location, size, or character of the Applicant’s or Customer’s installation, facilities will be constructed only when Applicant or Customer makes an adequate contribution toward the cost of such facilities, or makes other satisfactory arrangements which would be sufficient to warrant the Company to undertake the investment and expense involved.

Frequencies and voltages referred to in this schedule are approximate.

The Customer should consult the Company as to characteristics of service to be supplied to him before purchasing electrical equipment for any installation or for additions to or replacements of existing installations or before moving electrical equipment to a new address.
GENERAL INFORMATION

No. 29 CHARACTERISTICS OF SERVICE (Continued)

The Company reserves the right to change its system and its method of operation from time to
time, pursuant to law and the provisions of its schedule as, in its judgment, is necessary or
advisable for economical and proper service to the public.

No single phase motor in excess of 5 HP will be served hereunder unless the Company, after
inspection of the specific installation, method of operation and other relevant factors, determines
that such motor may be supplied without affecting the service to the applicant and neighboring
customers. The Company may require that any motor shall be of such size and have such
starting characteristics or be equipped with such starting current limitors as will satisfactorily
minimize or eliminate the effect of such motor's starts upon the service supplied to the applicant
or neighboring customers.

No. 30 PRIVATE RESIDENCE DEFINED

A private residence is considered as being used solely as a dwelling place by the occupant, his
family and guests. Boarding houses, rooming houses or residential hotels are not classed as
private residences.

The above Basic Generation Service Charges reflect costs for Energy, Generation Capacity, and Ancillary Services (including ISO Administrative Charges).

*Definition of Summer Billing Months - June through September
GENERAL INFORMATION

No. 31 BASIC GENERATION SERVICE (“BGS”) (Continued)

(1) Basic Generation Service – Residential Small Commercial Pricing (BGS-RSCP) (Continued)

Applicable to Service Classification Nos. 1, 2, 3, 4, 5 and 6

Service Classification No. 2 metered customers who are not required to take BGS-CIEP service in accordance with General Information Section No. 31(2) and are located in the Company’s Eastern Division may elect to take BGS-CIEP service on a voluntary basis. Such customers must notify the Company no later than the second business day in the month of January of each year to elect BGS-CIEP service for the annual period commencing June 1 of that year. Customers voluntarily taking BGS-CIEP service who, during the applicable annual period, elect to purchase Competitive Energy Supply from a Third-Party Supplier and then return to the Company’s BGS, shall be required to take BGS-CIEP service for the remainder of the annual period. Customers voluntarily taking BGS-CIEP service who wish to transfer to BGS-RSCP service as their default supply service must notify the Company no later than the second business day of the month of January in order to effectuate such transfer for service commencing on the following June 1. Customers who do not provide such notification to the Company shall remain on BGS-CIEP service for the twelve-month period commencing the following June 1.

In accordance with Rider SUT, the above charges include provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charges will be reduced by the relevant amount of such tax included therein.
GENERAL INFORMATION

No. 31 BASIC GENERATION SERVICE ("BGS") (Continued)

(2) Basic Generation Service – Commercial and Industrial Energy Pricing (BGS-CIEP)

This service is applicable to all Service Classification No. 7 customers, and Service Classification No. 2 customers who maintain a billing demand of 500 kW or greater during any two months of a calendar year, taking BGS from the Company. Service Classification No. 2 metered customers who do not meet the above criteria may elect to take BGS-CIEP service on a voluntary basis. See General Information Section No. 31(1).

BGS Energy Charges:
Charges per kilowatthour:
BGS Energy Charges are hourly and are provided at the real time PJM Load Weighted Average Residual Metered Load Aggregate Locational Marginal Prices for the Rockland Electric Transmission Zone, plus Ancillary Services (including PJM Administrative Charges) at the rate of $0.00640 per kilowatthour, adjusted for losses and applicable taxes.

BGS Capacity Charges:
Charges per kilowatt of Capacity Obligation as determined in accordance with General Information Section No. 31(C):

Charge applicable in Summer* months.........................................$ 12.4314
Charge applicable in other months................................................$ 12.4314

The above charges shall recover each customer’s share of the overall summer peak load assigned to the Rockland Electric Transmission Zone by PJM as adjusted by PJM assigned capacity related factors.

In accordance with Rider SUT, the above charges include provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charges will be reduced by the relevant amount of such tax included therein.

* June through September

(Continued)
GENERAL INFORMATION

No. 31 BASIC GENERATION SERVICE (“BGS”) (Continued)

(3) Capacity Obligation

The customer’s installed capacity obligation, in kilowatts, is determined by the Company no less frequently than once per year. The installed capacity obligation for existing customers or for new customers utilizing an existing building or premise is based upon the customer’s share of the overall summer peak load assigned to the Company by PJM as adjusted by PJM assigned capacity related factors. The installed capacity obligation for customers taking service in a new facility, as determined by the Company, is based upon the load requirements, as estimated by the Company of the customer’s building or premise. More specifically, the customer’s installed capacity obligation is established based upon the following: 1) an estimate of the customer’s peak demand, based upon the load shape of a representative sample of customers served under the same service classification, in conjunction with the actual or estimated, as applicable, summer energy use of that customer, or on the customer’s actual or estimated, as applicable, summer peak demand, depending on the type of metering equipment installed by the company, and 2) the aforementioned PJM assigned capacity related factors which are established no less frequently than once per year.
No. 31 BASIC GENERATION SERVICE ("BGS") (Continued)

(4) BGS Reconciliation Charges

Separate BGS-RSCP and BGS-CIEP reconciliation charges shall be computed quarterly and assessed on all BGS-RSCP and BGS-CIEP customers. The billing quarters shall be defined as the three-month periods beginning March, June, September, and December. The reconciliation charges shall recover the differences, including interest, between amounts paid to BGS suppliers and BGS revenue for the preceding quarter for the applicable BGS supply. The BGS Reconciliation Charges will also include refund of transmission charge retail rate revenue over collection for the period March 18, 2018 through April 30, 2019 resulting from the decrease in the PJM Open Access Transmission Tariff ("OATT") Schedule H-12 revenue requirement and the decrease in the Company’s PJM OATT Schedule 1A scheduling, system control, and dispatch rate approved by FERC on November 15, 2018 in FERC Docket No. ER18-1585. For any given quarter, the reconciliation charges shall not exceed a charge or a credit of 2.0 cents per kWh, including SUT. In the event the 2.0 cents per kWh limit is imposed, any remaining over- or under-collection balance shall be included in the subsequent quarter’s reconciliation charges to the extent possible within the 2.0 cents per kWh limitation. Interest will be calculated as determined by the Board in its Order dated February 6, 2009 in Docket Number ER08050310.

These charges include all applicable taxes and are charged on a monthly basis for all usage billed in the month indicated.

BGS-RSCP Reconciliation Charge .................................................. 1.815 ¢/kWh

BGS-CIEP Reconciliation Charge .................................................. (1.245) ¢/kWh

In accordance with Rider SUT, the above charges include provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charges will be reduced by the relevant amount of such tax included therein.

The BGS Reconciliation Charges shall be filed with the Board not less than fifteen days prior to the date on which they are proposed to become effective.
GENERAL INFORMATION

No. 32 CIEP STANDBY FEE

A CIEP Standby Fee shall be assessed on all kWh delivered under Service Classification No. 7 and on all kWh delivered to Service Classification No. 2 customers taking BGS-CIEP service. This charge shall recover costs associated with the administration, maintenance and availability of BGS-CIEP service.

CIEP Standby Fee........................................................................................................... 0.01599 ¢/kWh

In accordance with Rider SUT, the above charge includes provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charge will be reduced by the relevant amount of such tax included therein.
GENERAL INFORMATION

No. 33 SOCIETAL BENEFITS CHARGE (“SBC”)

The SBC shall be applied to the kWh usage on the bills of all customers served under this Schedule. The SBC shall include costs, including current costs and any refund or recovery of prior period over- or under-collection balances, related to:

(1) demand-side management (“DSM”), including the costs associated with DSM programs and DSM bidding programs;

(2) Clean Energy Program, (“CEP”); and

(3) Universal Service Fund and Lifeline.

The SBC to be effective on and after the date indicated below shall be set at 0.5834 cents per kWh, including sales and use tax (“SUT”). The SBC includes the following rate components:

<table>
<thead>
<tr>
<th>SBC Rate Components (¢ per kWh)</th>
<th>Excluding SUT</th>
<th>Including SUT</th>
</tr>
</thead>
<tbody>
<tr>
<td>DSM &amp; CEP</td>
<td>0.3359</td>
<td>0.3582</td>
</tr>
<tr>
<td>Universal Service Fund</td>
<td>0.1400</td>
<td>0.1493</td>
</tr>
<tr>
<td>Lifeline</td>
<td>0.0712</td>
<td>0.0759</td>
</tr>
<tr>
<td>Total SBC</td>
<td>0.5471</td>
<td>0.5834</td>
</tr>
</tbody>
</table>

The difference between actual costs incurred by the Company for the SBC components described above and SBC recoveries will be deferred, with interest, for future recovery in accordance with the Company’s Plan for Resolution of Proceedings approved by the Board in its Summary Order dated July 28, 1999 and Final Order dated July 22, 2002 in Docket Nos. EO97070464, EO97070465 and EO97070466.

(Continued)
GENERAL INFORMATION

No. 33 SOCIETAL BENEFITS CHARGE ("SBC") (Continued)

On April 1 of each year, the Company shall file with the Board the SBC rate components listed in (a) and (b) above for inclusion in the SBC effective for the twelve-month period commencing the following August 1. Such rate components shall be set to amortize any over- or under-recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following August 1.

On July 1 of each year, the Company shall file with the Board the Universal Service Fund and Lifeline rate components for inclusion in the SBC effective for the twelve-month period commencing the following October 1. Such rate components shall be set to recovery any under recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following October 1, consistent with the Board’s Universal Service Fund and Lifeline directives.
GENERAL INFORMATION

No. 34 REGIONAL GREENHOUSE GAS INITIATIVE ("RGGI") SURCHARGE

The RGGI Surcharge shall be applied to the kWh usage on the bills of all customers served under this Schedule. The RGGI Surcharge shall include the costs related to the Company’s:

(a) Energy Efficiency Stimulus Program ("EES Program");
(b) Low Income Audit and Direct Install Energy Efficiency Program ("Low Income Audit II Program");
(c) Low Income Audit and Direct Install Energy Efficiency Program ("Low Income Audit III Program");
(d) Solar Renewable Energy Certificate Program ("SREC Program"), including both the SREC I and SREC II Programs; and
(e) Transitional Renewable Energy Certificate Program ("TREC Program").

The RGGI Surcharge to be effective on and after the date indicated below shall be set at 0.2541 cents per kWh, including sales and use tax ("SUT"). The RGGI Surcharge includes the following rate components:

<table>
<thead>
<tr>
<th>RGGI Surcharge Rate Components (Cents per kWh)</th>

</tbody>
</table>

(a) EES Program

The EES Program component of the RGGI Surcharge will be subject to deferred accounting, with interest, and reconciled annually by comparing the actual amounts subject to recovery to the actual amounts collected. Any difference will be included in the EES Program component of the following year’s RGGI Surcharge. The difference between the actual monthly revenue requirement associated with the EES Program and actual recoveries through the EES Program component of the RGGI Surcharge will be deferred, with interest, for future recovery.

On February 1 of each year, the Company shall file with the Board the EES Program component of the RGGI Surcharge to be effective for the twelve-month period commencing the following June 1. The EES Program component of the RGGI Surcharge shall be set to recover any prior period over- or under-recovered balances, including interest, and to provide current recovery of the forecasted EES Program revenue requirement over the twelve-month period commencing the following June 1.

(Continued)
GENERAL INFORMATION

No. 34 REGIONAL GREENHOUSE GAS INITIATIVE ("RGGI") SURCHARGE (Continued)

(b) Low Income Audit II Program

The Low Income Audit II Program component of the RGGI Surcharge will be subject to deferred accounting, with interest, and reconciled annually by comparing the actual amounts subject to recovery to the actual amounts collected. Any difference will be included in the Low Income Audit II Program component of the following year's RGGI Surcharge. The difference between the actual monthly revenue requirement associated with the Low Income Audit II Program and actual recoveries through the Low Income Audit II Program component of the RGGI Surcharge will be deferred, with interest, for future recovery in the case of an under-collection or for future credits in the case of an over-collection.

On February 1 of each year, the Company shall file with the Board the Low Income Audit II Program component of the RGGI Surcharge to be effective for the twelve-month period commencing the following June 1. The Low Income Audit II Program component of the RGGI Surcharge shall be set to recover any prior period over- or under-recovered balances, including interest, and to provide current recovery of the forecasted Low Income Audit II Program revenue requirement over the twelve-month period commencing the following June 1.

(c) Low Income Audit III Program

The Low Income Audit III Program component of the RGGI Surcharge will be subject to deferred accounting, with interest, and reconciled annually by comparing the actual amounts subject to recovery to the actual amounts collected. Any difference will be included in the Low Income Audit III Program component of the following year's RGGI Surcharge. The difference between the actual monthly revenue requirement associated with the Low Income Audit III Program and actual recoveries through the Low Income Audit III Program component of the RGGI Surcharge will be deferred, with interest, for future recovery in the case of an under-collection or for future credits in the case of an over-collection.

On February 1 of each year, the Company shall file with the Board the Low Income Audit III Program component of the RGGI Surcharge to be effective for the twelve-month period commencing the following June 1. The Low Income Audit III Program component of the RGGI Surcharge shall be set to recover any prior period over- or under-recovered balances, including interest, and to provide current recovery of the forecasted Low Income Audit III Program revenue requirement over the twelve-month period commencing the following June 1.
GENERAL INFORMATION

No. 34 REGIONAL GREENHOUSE GAS INITIATIVE ("RGGI") SURCHARGE (Continued)

(d) SREC Program

The SREC Program component of the RGGI Surcharge will be subject to deferred accounting, with interest, and reconciled annually by comparing the actual amounts subject to recovery to the actual amounts collected for both the SREC I and SREC II Programs. Any differences will be included in the SREC Program components of the following year’s RGGI Surcharge. The differences between the actual monthly costs associated with the SREC I and SREC II Programs and actual recoveries through the SREC Program components of the RGGI Surcharge will be deferred, with interest, for future recovery.

On February 1 of each year, the Company shall file with the Board the SREC I and SREC II Program components of the RGGI Surcharge to be effective for the twelve-month period commencing the following June 1. The SREC Program components of the RGGI Surcharge shall be set to recover any prior period over- or under-recovered balances, including interest, and to provide current recovery of the forecasted SREC I and SREC II Program costs over the twelve-month period commencing the following June 1. For the initial period, the SREC Program component of the RGGI Surcharge will collect one-third of the accumulated SREC Program costs through December 31, 2016. The SREC Program filings made on February 1, 2018, and February 1, 2019, will also each include the remaining one-third of the accumulated SREC Program costs through December 31, 2016 in addition to the recovery of the prior year’s over- or under-recovered balances and the forecasted SREC Program costs for the following twelve-month period.

(e) TREC Program

The TREC Program component of the RGGI Surcharge will be subject to deferred accounting, with interest, and reconciled annually by comparing the actual amounts subject to recovery to the actual amounts collected. Any difference will be included in the TREC Program component of the following year’s RGGI Surcharge. The difference between the actual monthly revenue requirement associated with the TREC Program and actual recoveries through the TREC Program component of the RGGI Surcharge will be deferred, with interest, for future recovery.

On February 1 of each year, the Company shall file with the Board the TREC Program component of the RGGI Surcharge to be effective for the twelve-month period commencing the following June 1. The TREC Program component of the RGGI Surcharge shall be set to recover any prior period over- or under-recovered balances, including interest, and to provide current recovery of the forecasted TREC Program costs over the twelve-month period commencing the following June 1.

Interest will be included in the deferred balance for both an over-collection and for an under-collection for each component of the RGGI Surcharge and will be calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455.
GENERAL INFORMATION

No. 35 SECURITY CHARGES

On May 26, 2004, the Board issued a Bondable Stranded Costs Rate Order in Docket No. EF02110852 ("Financing Order") authorizing the issuance and sale of transition bonds in the amount of $46.3 million to provide the Company recovery of bondable stranded costs.

The Financing Order also authorized the implementation of a non-bypassable Transition Bond Charge ("TBC") and TBC-Tax. The TBC has been established, and will be adjusted periodically, in accordance with the methodology approved in the Financing Order to recover ongoing bondable stranded costs as defined in the Financing Order. The TBC-Tax has been set, and will be adjusted periodically, in accordance with the methodology approved in the Financing Order to recover federal income taxes and state corporate business taxes associated with the taxable net revenue from the TBC and the TBC-Tax.

The TBC and TBC-Tax shall be applied to the kWh usage on the bills of all customers served under this Schedule. The TBC and TBC-Tax to be effective on and after the date indicated below are as follows:

<table>
<thead>
<tr>
<th>Rate Component (¢ per kWh)</th>
<th>Excluding SUT</th>
<th>Including SUT</th>
</tr>
</thead>
<tbody>
<tr>
<td>TBC</td>
<td>0.000</td>
<td>0.000</td>
</tr>
<tr>

<td>0.000</td>
<td>0.000</td>
</tr>
</tbody>
</table>
No. 36 TEMPORARY TAX ACT CREDIT

The Temporary Tax Act Credit shall be applied to the kWh usage on the bills of all customers served under this Rate Schedule. The Temporary Tax Act Credit will refund customers for the net regulatory liability associated with the unprotected accumulated deferred income taxes of $10.6 million as of December 31, 2017. Such credit shall be set at 0.235 ¢/kWh, including sales and use tax, and will be in effect from July 1, 2018 through June 30, 2021.
GENERAL INFORMATION

No. 37 ZERO EMISSION CERTIFICATE ("ZEC") RECOVERY CHARGE

The Zero Emission Certificate Recovery Charge ("ZEC Charge") provides a charge for the recovery of costs associated with the Zero Emission Certificate Program directed by the Board of Public Utilities ("BPU" or "Board") as detailed below. The ZEC charge is applicable to the kWh usage of any Full Service Customer or Retail Access Customer served under this Schedule.

<table>
<thead>
<tr>
<th></th>
<th>Excluding SUT (¢ per kWh)</th>
<th>Including SUT (¢ per kWh)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ZEC Charge</td>

<td>0.0000</td>
</tr>
<tr>
<td>Total ZEC Charge</td>
<td>0.4000</td>
<td>0.4265</td>
</tr>
</tbody>
</table>

Pursuant to the BPU’s Zero Emission Certificate Charge Order dated November 19, 2018 in Docket No. EO18091005, the Board approved the implementation of a non-bypassable, irrevocable ZEC Charge of $0.004000 per kWh for all customers. The ZEC Charge reflects the emission avoidance benefits of the continued operation of selected nuclear plants as determined in L. 2018, c.16 (the "ZEC Law"). The ZEC Charge has been set at the rate specified in the ZEC Law and may be adjusted periodically by the Board, in accordance with the methodology provided for in the ZEC Law.

In accordance with the ZEC Law, the proceeds of the ZEC Charge will be placed in a separate, interest-bearing account and will be used solely to purchase ZECs and to reimburse the Board for its reasonable, verifiable costs incurred to implement the ZEC program. Refunds will be provided to the customers served under each of the Company’s service classifications in proportion to the ZEC Charge revenues contributed by the service classification.

The ZEC Charge will become effective upon the issuance of the April 2019 Board Order in Docket No. EO18091005.
GENERAL INFORMATION

No. 38 THIRD PARTY SUPPLIER STANDARDS

(1) **Tariff Governs** - The Company’s Board-approved Third Party Supplier Agreement, as supplemented by the Board-approved Third Party Supplier Customer Account Services Master Service Agreement, will be governed by reference to this tariff for service.

(2) **Uniform Agreement** - The Company shall offer the same Board-approved Third Party Supplier Agreement, supplemented by the Board-approved Third Party Supplier Customer Account Services Master Service Agreement, to all licensed entities that seek to serve as Electric Generation Suppliers in the Company’s service territory.

(3) **Procedures for Agreement Modification** - In accordance with the standards set forth by the Board, modifications to the Company’s Third Party Supplier Agreement must be approved by the Board as follows:

The Company shall file a written request with the Board for its approval of intended modifications (the "Request"). The date of filing shall be referenced herein as the "Filing Date". Within 48 hours of the Filing Date, a copy of the Request shall be sent to the Division of the Ratepayer Advocate and to all Board-licensed Electric Generation Suppliers, by e-mail or hard copy, using a list of addresses for the Electric Generation Suppliers that shall be maintained by the Board and made available to the Company.

Should the Ratepayer Advocate or any Electric Generation Supplier wish to contest the Request, the contesting entity must file its reasons for contesting the Request, in writing, with the Board and simultaneously serve copies thereof upon the Company and the Ratepayer Advocate. This must be done within 17 days of the Filing Date. Service upon the Company shall be made by way of the Company representative who filed the Request.

Within 45 days of the Filing Date, the Board may issue a determination that the Request requires further study. Such determination would put the Request on hold, pending future action by the Board.

If the Board does not take action on the Request within 45 days of the Filing Date, the Company may implement the intended modifications, although the Board retains the authority to make a determination on the Request in the future.
GENERAL INFORMATION

No. 39 ELECTRIC INDUSTRY RESTRUCTURING STANDARDS

(1) Change of Electric Generation Supplier - The Company shall not initiate or change a customer’s Electric Generation Supplier (“EGS”) unless the requirements set forth by the Board pursuant to its Orders dated March 17, 1999 and May 5, 1999 (Docket Nos. EX94120585Y, etc.) or future Orders have been complied with by both the customer and the Electric Generation Supplier.

Enrollment

(a) Customers may request an enrollment package from the Company which, in addition to providing general information regarding retail access, describes the process necessary for a customer to obtain an EGS. This enrollment package will be provided to the customer at no charge and may be obtained by calling or writing the Company.

(b) Customers may make a selection of an EGS by directly contacting an EGS whom the Board has determined to be eligible to participate in retail access in the State of New Jersey. The EGS must obtain the appropriate authorization from the customer indicating the customer’s choice of the EGS. It is the EGS’s responsibility to maintain records of the customer’s authorization in the event of a dispute, in order to provide documented evidence of authorization to the Company or the Board.

(c) EGS must provide the Company with an electronic enrollment notice at least 13 days prior to the customer’s next scheduled meter reading (“Effective Switch Date”).

(d) The Company will send a confirmation letter to the customer within 1 business day of receipt of the electronic enrollment notice. Included in this letter shall be customer’s name, address, Company account number, EGS name, estimated start date and notification of a 7 day rescission period.

(e) Customers which request to cancel the EGS change must contact the Company within 7 days of the date of the confirmation letter. If the customer does not contact the Company within the 7 day period, the enrollment will take place on the Effective Switch Date.

(Continued)
GENERAL INFORMATION

No. 39 ELECTRIC INDUSTRY RESTRUCTURING STANDARDS (Continued)

(1) Change of Electric Generation Supplier (Continued)

Switch of EGS

(a) If a customer contacts a new EGS to request a change of EGS and the new EGS agrees to serve the customer, the customer’s new EGS shall obtain appropriate authorization from the customer indicating the customer’s choice of the EGS.

(b) The new EGS must provide the Company with an electronic enrollment notice at least 13 days prior to the Effective Switch Date. The Company will send a confirmation letter to the customer within 1 business day of receipt of the electronic enrollment notice. Included in this letter shall be customer’s name, address, Company account number, EGS name and estimated start date and notification of a 7 day rescission period. The Company will also notify the customer’s previous EGS of the switch.

(c) Customers which request to cancel the EGS change must contact the Company within 7 days of the date of the confirmation letter. If the customer does not contact the company within the 7 day period, the switch will take place on the Effective Switch Date.

Switch from EGS to the Company’s Basic Generation Service ("BGS")

If a customer contacts the Company to request a change from an EGS to the Company's BGS, the Company will send a confirmation letter to the customer notifying the customer of the right to rescind the request by contacting the Company within 7 days of the date on the confirmation letter. If the customer does not contact the Company within the 7 day period, the customer request will take place on the Effective Switch Date.
No. 39 ELECTRIC INDUSTRY RESTRUCTURING STANDARDS (Continued)

(2) **Interim Standard on Restructuring** - The Board has adopted Interim Standards on Anti-Slamming, Licensing and Registration Requirements for Electric Power Supplier and Retail Choice Consumer Protection in its Order dated May 13, 1999 (Docket No. EX99030182) pursuant to the Electric Discount and Energy Competition Act, P.L. 1999, c.23 (“Act”). Such Standards shall remain in effect until final regulations are promulgated by the Board in accordance with the Act.

(3) **Special Meter Reading** - If a customer or an EGS requests the Company to obtain a meter reading on a day other than the scheduled meter read date, the requesting party will be charged a fee of $20 per meter and will be responsible for assuring that the Company will be provided access to the meter. Requests for special meter readings must be made not less than ten calendar days in advance of the requested read date. Also, for any metering information or services requested that the Company does not provide, the Company will, at its sole discretion, provide the service or information at its cost.

(4) **Request for Historical Data** – If a customer or a TPS requests the Company to provide historical customer information greater than 24 months old, the requesting party will be charged a fee of $15 for each request.
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS

Applicable to Service Classification Nos. 1, 2, 3, 5 and 7

Eligibility

A customer operating a qualifying class I renewable energy system as defined at N.J.A.C. 14:8-1.2 ("Customer-generator") located on the customer's side of the electric meter, used at the customer's residence or facility is eligible for service hereunder, provided that (1) the generating capacity of the Customer-generator's facility does not exceed the amount of electricity supplied by the electric power supplier or basic generation service provider to the customer over a historical 12-month period; (2) the Customer-generator's annual peak demand is less than ten megawatts; and (3) the Customer-generator complies with the provisions of this Rider.

The Customer-generator will be required to submit an application for service under this Rider and pay an application processing fee as defined in N.J.A.C. 14:8-5 at the time of application. The Customer-generator will also be required to submit a signed Net Metering Agreement to the Company and the Company's execution of such Net Metering Agreement shall constitute approval for the Customer-generator to receive service hereunder.

Interconnection with the Company's system will be in accordance with the terms and conditions set forth in the Net Metering Agreement. Interconnection costs shall be paid as defined in N.J.A.C. 14:8-5 and shall be in addition to any line extension charge required to meet service requirements.

Net metering shall be available to eligible Customer-generators on a first-come, first-served basis. The Company may be authorized by the Board to cease offering net metering whenever the total rated generating capacity owned and operated by net metering Customer-generators Statewide equals 2.5 percent of the State's peak electricity demand.

(Continued)
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS (Continued)

Metering and Billing

Metering may be accomplished using a single meter to record the energy delivered by the Company to the Customer-generator and energy supplied by the Customer-generator to the Company. The Company shall be permitted to install a second meter, at its expense if the Customer-generator consents. The Customer-generator may request that the Company install a second meter at the Customer-generator's expense.

The Company will employ net energy metering to measure and charge for the net energy delivered by the Company as follows:

(1) If the amount of energy delivered by the Company exceeds the amount of energy supplied to the Company (net purchase by Customer-generator) in a billing period, the Customer-generator will be billed for such net purchase at the rates specified in the Customer-generator's applicable Service Classification.

(2) If the amount of energy supplied to the Company exceeds the amount of energy delivered by the Company (net sale by Customer-generator) during a billing period, that amount will be transferred to the next billing period and added to any sales by the Customer-generator in that billing period. At the end of each twelve-month period ("Annualized Period"), any cumulative net sale by a Customer-generator shall be purchased as described below.

(a) A net sale, by a Customer-generator purchasing Basic Generation Service from the Company, will be purchased by the Company at the PJM Load Weighted Average Residual Metered Load Aggregate Locational Marginal Price, averaged over the twelve-month period. A credit voucher will be issued to the Customer-generator for the amount resulting from such net sale. This credit shall be used to offset electric bills issued to the Customer-generator following the date the credit is issued.

(b) A net sale, by a Customer-generator purchasing Competitive Energy Supply, will be purchased by the Customer-generator’s Electric Generation Supplier at its avoided cost of wholesale power.
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS (Continued)

Metering and Billing (Continued)

(2) (Continued)

When a Customer-generator switches electric suppliers, the electric power supplier or basic generation service provider with whom service is terminating shall treat the end of the service period as if it were the end of the Annualized Period.

The selection of the Annualized Period of a Customer-generator shall be in accordance with the terms and conditions set forth in N.J.A.C. 14:8-4.

Aggregated Net Metering

(1) Aggregated net metering shall be permitted in accordance with the terms and conditions set forth in N.J.A.C. 14:8-7.

Interconnection Standards

(1) Customer-generators shall comply with the Company’s Interconnection Standards, and meet all applicable safety and power quality standards approved by the National Electrical Code, Institute of Electrical and Electronics Engineers, and accredited testing institutions, such as Underwriters Laboratories. All Customer-generator facilities shall also comply with all other requirements in N.J.A.C. 14:8-5.

(2) The Company may not require an eligible Customer-generator whose system(s) meets the standards above to install additional controls, perform or pay for additional tests or purchase additional liability insurance.

(Continued)
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS (Continued)

Reporting

The Company and Electric Generation Suppliers providing Competitive Energy Supply to the Company’s customers shall each submit two net metering and two interconnection reports per year, one covering January 1 through June 30 and one covering July 1 through December 31. These reports shall be submitted by August 1 and February 1, respectively.

The net metering report shall include the following information during the reporting period:

1. The estimated total kilowatt hours supplied to the distribution system by Customer-generators and a description of the estimation methodology used;
2. The estimated total kilowatt hours that were delivered to Customer-generators through the distribution system;
3. The total number of Customer-generators that were paid for excess generation at the end of the Customer-generators’ annualized periods; and
4. The total dollar amount that the Company paid to Customer-generators for excess generation at the end of the Customer-generators annualized periods, separated by month.

The interconnection report shall include the following information regarding Customer-generator facilities that interconnected with the distribution system for the first time during the reporting period, listed by type of renewable energy technology:

1. The number of Customer-generators that interconnected;
2. The estimated total rated generating capacity of all Customer-generator facilities that interconnected; and
3. The total cumulative number of Customer-generators that interconnected between June 15, 2001 and the end of the reporting period, including the Customer-generators in 1 above.
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

This leaf intentionally left blank.
CORPORATE BUSINESS TAX (CBT)

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), provision for the New Jersey Corporation Business Tax has been included in all customer charges, distribution changes and, where applicable, per luminaire charges applicable under this tariff. The energy tax reform statute exempts the following customers from the CBT provision, and when billed to such customers, the Base Tariff Rates otherwise applicable under this tariff shall be reduced by the provision for the CBT (and related New Jersey Sales and Use Tax) included therein:

1. Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.

2. Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.

3. Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.
SALES AND USE TAX (SUT)

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), as amended by P.L. 2016, c. 57, provision for the New Jersey Sales and Use Tax ("SUT") has been included in all charges applicable under this tariff by multiplying the charges that would apply before application of the SUT by the factor 1.06625.

(1) The energy tax reform statute exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable under this tariff shall be reduced by the provision for the SUT included therein:

(a) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.

(b) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.

(c) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.

(d) Agencies or instrumentalities of the federal government.

(e) International organizations of which the United States of America is a member.

(2) The Business Retention and Relocation Assistance Act (P.L. 2004, c. 65) and subsequent amendment (P.L. 2005, c.374) exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable shall be reduced by the provision for the SUT included therein:

(a) A qualified business that employs at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process, for the exclusive use or consumption of such business within an enterprise zone, and
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

SALES AND USE TAX (SUT) (Continued)

(2) (Continued)

(b) A group of two or more persons: (a) each of which is a qualified business that are all located within a single redevelopment area adopted pursuant to the “Local Redevelopment and Housing Law,” P.L.1992, c.79 (C.40A:12A-1 et seq.); (b) that collectively employ at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process; (c) are each engaged in a vertically integrated business, evidenced by the manufacture and distribution of a product or family of products that, when taken together, are primarily used, packaged and sold as a single product; and (d) collectively use the energy and utility service for the exclusive use or consumption of each of the persons that comprise a group within an enterprise zone, and

(c) A business facility located within a county that is designated for the 50% tax exemption under section P.L.1993, c.373 (C.54:32B-8.45) provided that the business certifies that it employs at least 50 people at the facility, at least 50% of whom are directly employed in a manufacturing process, and provided that the energy and the utility services are consumed exclusively at that facility.

A business that meets the requirements in (2)(a), (2)(b), or (2)(c) above shall not be provided the exemption described in this section until it has complied with such requirements for obtaining the exemption as may be provided pursuant to P.L.1983, c.303 (C.52:27H-60 et seq.) and P.L.1966, c.30 (C.54:32B-1 et seq.) and the Company has received a sales tax exemption letter issued by the New Jersey Department of Treasury, Division of Taxation.
STANDBY SERVICE

Standby Service will be furnished when and where available to demand billed customers served under Service Classification No. 2 or 7 with on-site generation equipment or other source of electric service under the following conditions:

(a) Customer's on-site generation meets the definition of distributed generation as defined in N.J.S.A. 48:2-21.37.

(b) The customer agrees to abide by all provisions of the Company's "Operating, Metering, and Equipment Protection Requirements for Parallel Operation of Generating Facilities."

(c) The customer shall pay for any special metering costs. Special metering costs shall be defined as the total cost of metering less the cost of metering for service under the customer's Service Classification for customers without on-site generation.

(d) The standby capacity for a customer whose total generation capacity (nameplate ratings) is greater than said customer's total demand requirements shall be the amount of standby capacity, in kW, requested by said customer but not less than said customer's maximum demand as metered by the Company in any previous month. The standby capacity for all other customers shall be the nameplate rating, in kW, of all the customer's generation facilities interconnected with the Company's system, as determined by the Company.

(e) The customer shall notify the Company of all changes in customer's generating facilities prior to making such changes and shall allow the Company's representatives access to those facilities for purposes of inspection and redetermination of the standby capacity.

(f) The customer shall pay to the Company a standby capacity charge of $1.55 per kW of standby capacity per month. The standby capacity charge will be included in customer's bill for service rendered under Service Classification No. 2 or No. 7.

(g) In any month where the availability factor of the customer's generation facilities, as defined in (i), is lower than 50%, then the customer will not be eligible to take service under this Rider and the customer will not be charged the standby capacity charge described in (f).
STANDBY SERVICE (Continued)

(h) In any month where the availability factor of the customer's generation facilities, as defined in (i), is 50% or greater, the customer will pay for all the rates and charges contained in Service Classification No. 2 or No. 7; however, the Distribution Demand Charge shall be calculated based on the billing demand as provided for in the provision in Service Classification No. 2 or No. 7 entitled “DETERMINATION OF DEMAND” minus the customer’s standby capacity. For Service Classification No. 7 customers, this calculation will be performed for each rating period. In no event shall any billing demand be less than zero kW.

(i) For purposes of item (g) above, the availability factor of customer’s facilities shall be defined as the total energy (in kWh) produced by the facilities in the six month period ended with the current billing period (less the energy produced during mutually agreed upon maintenance periods) divided by (i) the number of hours in that period (less the number of hours in the mutually agreed upon maintenance periods) and (ii) the nameplate rating, in kW, of the customer's generation facilities. During each of the first five billing periods for each customer, the availability factor shall be determined using the data that are available since the customer first commenced service hereunder.
BUILDING UTILIZATION RIDER

Applicable To

Customers receiving service under Service Classification No. 2 or 7. This rider is not available to those customers taking high voltage distribution service.

Character of Service

Commitments for service under this provision will be made available to qualifying customers from January 1, 2017 until December 31, 2019. Customers must commence service hereunder within 24 months of the date of commitment.

Eligibility

Each customer will be required to sign an application for service under the Building Utilization Rider. The application must be submitted prior to leasing or purchasing vacant space. Upon verification of eligibility, the Company will approve the application and provide the customer with a written commitment for service hereunder.

To be eligible, a customer must lease or purchase space that has been vacant for a minimum of three months prior to such time as the customer submits an application for service hereunder, as determined by the Company. The total leased or purchased building space must equal or exceed 7,500 square feet.

To be eligible, the customer must operate a business therein which is classified by the North American Industry Classification System (1997 edition or supplements thereto) as Manufacturing (Sector 31-33), Wholesale Trade (Sector 42), Transportation and Warehousing (Sector 48-49), Information (Sector 51), Finance and Insurance (Sector 52), Real Estate, Rental and Leasing (Sector 53), Professional, Scientific and Technical Services (Sector 54), Management of Companies and Enterprises (Sector 55), Administrative, Support, Waste Management and Remediation (Sector 56).

To be eligible, the customer must qualify for, receive, and provide the Company with suitable documentation substantiating the receipt of a comprehensive package of economic incentives conferred by the local municipality or state authorities and including substantial financial assistance or a substantial tax incentive program designed to maintain or increase employment levels in the service area.
BUILDING UTILIZATION RIDER (Continued)

Eligibility (Continued)

To be eligible, the customer must be adding permanent full-time employees to their payroll at the site receiving service under the Building Utilization Rider. Relocation or consolidation of New Jersey based employees, without employment growth, will not qualify. By December 31 of each of the five years a customer receives service under this Rider, the customer shall submit to the Company, a letter detailing how many additional jobs it has added for that year and its current employee level. A customer failing to provide this information by December 31 of each year shall no longer be eligible for service under this Rider.

The Company shall not be obligated to approve additional applications in a calendar year if applications representing over 500,000 square feet of total leased or purchased building space have been accepted in such calendar year.

Credit

For the customer's newly leased or purchased space, as determined by the Company, a credit of 20 percent of the Customer Charge and Distribution Charges will be applied to the customer's monthly electric bills for 60 consecutive billing months.

Revenue Test For Facility Extensions

The Company shall implement the following revenue test to determine whether a customer must make a contribution toward the costs associated with any investment in facilities by the Company necessary to provide service to the customer.

(Continued)
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

Building Utilization Rider (Continued)

Revenue Test For Facility Extensions (Continued)

The cost and expense which the Company must bear shall be equal to four times the projected annual delivery revenue resulting from the customer’s construction or expansion. Delivery revenue, for the purposes of this provision, shall be defined as revenue derived by the Company from the Customer Charge, Distribution Charges, and Transmission Charges of the customer’s applicable service classification, less the Credit provided under this Rider and excluding New Jersey Sales and Use Tax and Transmission Surcharges. The customer must pay a lump sum charge, prior to the commencement of construction, for the installation of any Company facilities in excess of the amount described above.

The customer must provide, for a period of time equal to the startup period, as defined below, plus four years, financial security in the form of a performance bond or an irrevocable letter of credit, in a form and from a party reasonably acceptable to the Company, in the lesser of an amount equal to four times the projected annual delivery revenue resulting from the customer’s construction or expansion or the cost of the facility extension.

The Company and the customer shall agree on a startup period, not to exceed twelve months, beginning on the date service commences hereunder. For each of the first four years after the end of the startup period, the Company shall compare the projected delivery revenue used in the above-referenced revenue test to actual delivery revenue received in the preceding year. If actual delivery revenue is less than projected delivery revenue, the Company shall notify the customer of such difference and the Company may call upon the performance bond and/or irrevocable letter of credit for such difference.

Limitations of Service

This service is not available to federal, state, county, or local government entities.
GENERAL INFORMATION
SERVICE CLASSIFICATION RIDER (Continued)

BUSINESS EXPANSION RIDER

Applicable To

Customers receiving service under Service Classification No. 2 or 7. This rider is not available to those customers taking high voltage distribution service.

Character of Service

Commitments for service under this provision will be made available to qualifying customers from January 1, 2017 until December 31, 2019. Customers must commence service hereunder within 24 months of the date of such commitment.

Eligibility

Eligible customers are those constructing new facilities or expanding existing facilities subject to the requirements of this Rider.

Each customer will be required to sign an application for service under the Business Expansion Rider. The application must be submitted prior to construction. Upon verification of eligibility, the Company will approve the application and provide the customer with a written commitment for service hereunder.

To be eligible, the area of the customer’s newly constructed facility or expansion of an existing facility must equal or exceed 7,500 square feet.

To be eligible, a customer’s newly constructed facility or expansion of an existing facility must be classified by the North American Industry Classification System (1997 edition or supplements thereto) as Manufacturing (Sector 31-33), Wholesale Trade (Sector 42), Transportation and Warehousing (Sector 48-49), Information (Sector 51), Finance and Insurance (Sector 52), Real Estate, Rental and Leasing (Sector 53), Professional, Scientific and Technical Services (Sector 54), Management of Companies and Enterprises (Sector 55), Administrative, Support, Waste Management and Remediation (Sector 56).

(Continued)
BUSINESS EXPANSION RIDER (Continued)

Eligibility (Continued)

To be eligible, the customer must qualify for, receive, and provide the Company with suitable documentation substantiating the receipt of a comprehensive package of economic incentives conferred by the local municipality or state authorities and including substantial financial assistance or a substantial tax incentive program designed to maintain or increase employment levels in the service area.

To be eligible, the customer must be adding permanent full-time employees to their payroll at the site receiving service under the Business Expansion Rider. Relocation or consolidation of New Jersey based employees, without employment growth, will not qualify. By December 31 of each of the five years a customer receives service under this Rider, the customer shall submit to the Company, a letter detailing how many additional jobs it has added for that year and its current employee level. A customer failing to provide this information by December 31 of each year shall no longer be eligible for service under this Rider.

The Company shall not be obligated to approve additional applications in a calendar year if applications representing over 500,000 square feet of total newly constructed or expanded building space have been accepted in such calendar year.

Credit

For the customer's newly constructed or expanded portion of their existing facility, as determined by the Company, a credit of 20 percent of the Customer Charge and Distribution Charges will be applied to the customer's monthly electric bills for 60 consecutive billing months.

Revenue Test For Facility Extensions

The Company shall implement the following revenue test to determine whether a customer must make a contribution toward the costs associated with any investment in facilities by the Company necessary to provide service to the customer.
BUSINESS EXPANSION RIDER (Continued)

Revenue Test For Facility Extensions (Continued)

The cost and expense which the Company must bear shall be equal to four times the projected annual delivery revenue resulting from the customer’s construction or expansion. Delivery revenue, for the purposes of this provision, shall be defined as revenue derived by the Company from the Customer Charge, Distribution Charges and Transmission Charges of the customer’s applicable service classification, less the Credit provided under this Rider and excluding New Jersey Sales and Use Tax and Transmission Surcharges. The customer must pay a lump sum charge, prior to the commencement of construction, for the installation of any Company facilities in excess of the amount described above.

The customer must provide, for a period of time equal to the startup period, as defined below, plus four years, financial security in the form of a performance bond or an irrevocable letter of credit, in a form and from a party reasonably acceptable to the Company, in the lesser of an amount equal to four times the projected annual delivery revenue resulting from the customer’s construction or expansion or the cost of the facility extension.

The Company and the customer shall agree on a startup period, not to exceed twelve months, beginning on the date service commences hereunder. For each of the first four years after the end of the startup period, the Company shall compare the projected delivery revenue used in the above-referenced revenue test to actual delivery revenue received in the preceding year. If actual delivery revenue is less than projected delivery revenue, the Company shall notify the customer of such difference and the Company may call upon the performance bond and/or irrevocable letter of credit for such difference.

Limitations of Service

This service is not available to federal, state, county or local government entities.
SERVICE CLASSIFICATION NO. 1
RESIDENTIAL SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to residential customers. All service at each residence shall be taken through one meter. Service will also be furnished hereunder to a church and adjacent buildings (other than school buildings which substitute for public education), owned by the church and operated in connection therewith; provided, however, that if the buildings of any such church group are separated by a highway or highways, then the electricity delivered to each group so separated shall not be combined with the electricity delivered to other buildings of the church group but shall be billed separately under this rate.

CHARACTER OF SERVICE

Continuous, 60 cycle, A.C., from any of the following systems as designated by the Company:

(1) Single phase at approximately 120,120/208 or 120/240 volts.
(2) Three phase four wire at approximately 120/208 volts in limited areas.

(5) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

MINIMUM CHARGE EACH CONTRACT EACH LOCATION

$5.41 monthly, not less than $32.46 per contract.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

TERM

Terminable at any time unless a specified period is required under a line extension agreement.

EXTENSION OF FACILITIES

Where service is supplied from an extension the charges thereon shall be determined as provided in General Information.
SERVICE CLASSIFICATION NO. 1
RESIDENTIAL SERVICE (Continued)

SPECIAL PROVISIONS

(A) Short Term Service

Customers desiring service under this schedule for less than six months, where service is already installed, shall pay in advance the contract minimum as specified under "Minimum Charge Each Contract Each Location" or under an applicable line extension agreement, or, if the estimated bill for two months or such shorter period as service may be desired exceeds the contract minimum, the Company reserves the right to request a deposit equal to this estimated bill. A part of a month shall be considered a full month for computing all charges hereunder.

(B) Budget Billing Plan

Any customer taking service hereunder may, upon request, be billed monthly in accordance with the budget billing plan as provided for in General Information Section 8 of this tariff.
This leaf intentionally left blank.
SERVICE CLASSIFICATION NO. 2
GENERAL SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to general secondary or primary service customers.

A customer taking primary service whose demand exceeds 1,000 kW during any two of the previous twelve months shall not be eligible for this rate and shall be transferred to Service Classification No. 7. A customer so transferred shall only be eligible for transfer back to Service Classification No. 2 on the annual anniversary of the transfer to Service Classification No. 7 and only if said customer has not exceeded 1,000 kW during any two of the previous twelve months.

All service at one location shall be taken through one meter except that service under Special Provision B shall be separately metered.

Demand billed customers with on-site generation that meet the definition of distributed generation as defined in N.J.S.A. 48:2-21.37 shall be subject to the provisions of Service Classification Rider – Standby Service.

CHARACTER OF SERVICE

Continuous, 60 cycle, A.C., single or three phase secondary, at approximately 120/208, 120/240 volts, and 277/480 volts where available; or three phase primary at approximately 2400/4160 and 7620/13200 volts Wye, 13000 and 34500 volts Delta, 69000 volts Wye, and in limited areas 2400 or 4800 volts Delta, depending upon the magnitude and characteristics of the load and the circuit from which service is supplied.

GENERAL SERVICE (Continued)

RATE – MONTHLY (Continued)

(5) CIEP Standby Fee

In accordance with General Information Section No. 32, a CIEP Standby Fee shall be assessed on all kWh of customers eligible for BGS-CIEP service.

(6) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

MINIMUM MONTHLY CHARGE

Secondary Service (Non-Demand Billed)

Unmetered Service $14.00
Metered Service $16.00

Secondary Service (Demand Billed) $21.01 Plus the demand charge.
Primary Service $92.00 Plus the demand charge.

DETERMINATION OF DEMAND

The monthly billing demand in kW shall be either the greatest connected load or the greatest 15-minute integrated demand, determined as follows:

(1) Billing demand may be on a connected load basis when

(a) demand meter would not reduce the billing demand, or

(b) the installation is temporary, or

(c) the device has a large instantaneous or highly fluctuating demand.

(2) Billing shall be on a demand meter basis in all other cases and shall be billed at not less than 90% of the kVA demand. The billing demand for the billing months of October through May inclusive shall not be less than 70% of the highest metered demand for the preceding billing months of June through September inclusive.

(Continued)
SERVICE CLASSIFICATION NO. 2
GENERAL SERVICE (Continued)

DETERMINATION OF DEMAND (Continued)

Temporary Reduction in Demand - If, as a result of fire, riot, strike, governmental interference, or act of God, a customer is unable to operate his plant, in part or in full, then after 30 days' written notice and requests, and thereafter for not more than three (3) consecutive months, the billing demand will be (a) 50% of the average billing demand for the preceding six months, or (b) the actual monthly demand, whichever is greater. At the end of said period, or at such prior time as normal operation is resumed, the billing demand shall be determined in the usual way, and the Company shall not again be requested to make a similar reduction in billing demand until the expiration of twelve (12) months thereafter.

General - Where the customer's load is highly fluctuating and instantaneous, requiring additional transformer capacity, the billing demand shall be equal to the rated transformer capacity required to supply the load.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

TERM

(1) Secondary service is terminable at any time after one year unless a longer period is required under a line extension agreement.

(2) Primary service for demands up to and including 3,000 kW: The agreement for service shall be terminable at any time after one year upon ninety days written notice.

(3) Primary service for demands in excess of 3,000 kW: The agreement for service shall provide for an initial term of five (5) years, to continue thereafter for five-year periods until and unless terminated by either party by giving notice in writing to the other party not less than ninety (90) days prior to the termination of the initial term or any subsequent renewal period.

A customer's demand shall be deemed to be in excess of 3,000 kW if the actual demand of the customer shall exceed 3,000 kW for any six monthly billing periods in any twelve (12) month period.

With respect to primary service under (b) or (c), the Company reserves the right to require a longer initial term where special construction is required to furnish the service.

(Continued)
SERVICE CLASSIFICATION NO. 2  
GENERAL SERVICE (Continued)

SPECIAL PROVISIONS

(A) Short Term Secondary Service

When short term service is requested, the Company reserves the right to require a deposit of the estimated bill for the period service is desired. The minimum charge for such short term service shall be an amount equal to six times the minimum monthly charge, payable in advance. When construction is necessary, the cost of installation and removal of all equipment, less salvage value, shall be borne by the customer, and a sufficient amount to cover these charges shall be paid in advance. A part of a month shall be considered a full month for computing all charges hereunder.

(B) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of 3.260 ¢/kWh during the billing months of October through May and 5.430 ¢/kWh during the summer billing months. When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of $26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (3), (4), and (6) of RATE – MONTHLY.

This special provision is closed to new customers effective August 1, 2014.

(Continued)
SPECIAL PROVISIONS (Continued)

(C) Budget Billing Plan

Any condominium association or cooperative housing corporation who takes service hereunder and any other customer taking service under Special Provision B of this Service Classification may, upon request, be billed monthly in accordance with the budget billing plan provided for in General Information Section 8 of this tariff.

(D) Veterans’ Organization Service

Pursuant to N.J.S.A. 48:2-21.41, when electric service is delivered to a customer that is a Veterans’ Organization that is serving the needs of veterans of the armed forces, the customer may apply and be eligible for billing under this Special Provision.

Each customer shall be eligible for billing under this Special Provision upon submitting an Application for Veterans’ Organization Service under this Service Classification and by qualifying as a Veterans’ Organization as defined by N.J.S.A. 48:2-21.41 as “an organization dedicated to serving the needs of veterans of the armed forces that: is chartered under federal law, qualifies as a tax exempt organization under paragraph (19) of subsection (c) of section 501 of the federal Internal Revenue Code of 1986, 26 U.S.C. s.501 (c)(19), or that is organized as a corporation under the ‘New Jersey Nonprofit Corporation Act,’ N.J.S.15A:1-1 et seq.” Under N.J.S.A. 48: 2-21.41, a qualified Veterans’ Organization shall be charged the residential rate for service delivered to the property where the Veterans’ Organization primarily operates, if the residential rate is lower than the commercial rate for service at that property.

The customer shall furnish satisfactory proof of eligibility for service under this Special Provision to the Company. Once proof of eligibility is determined by the Company, service under this Special Provision shall begin with the next billing cycle following receipt of the Application.

(Continued)
SPECIAL PROVISIONS (Continued)

(D) Veterans’ Organization Service (Continued)

The customer will continue to be billed on this Service Classification. At least once annually, the Company shall review eligible customers’ distribution charges under this Special Provision for all relevant periods. If the comparable distribution charges under Service Classification No. 1 are lower than the distribution charges under the customer’s current Service Classification, a credit in the amount of the difference will be applied to the customer’s next bill.
SERVICE CLASSIFICATION NO. 3
RESIDENTIAL TIME-OF-DAY HEATING SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to residential customers where an approved electric storage heater is used for customer's entire water heating requirements and/or permanently installed electric space heating equipment is the sole source of space heating, excluding fire places, on the premises. Solar energy collection devices may be used to supplement customer's water and/or space heating requirements.

CHARACTER OF SERVICE

Continuous, 60 cycle, A.C., from any of the following systems as designated by the Company:

(1) Single phase at approximately 120,120/208 or 120/240 volts.

(2) Three phase four wire at approximately 120/208 volts in limited areas.

RESIDENTIAL TIME-OF-DAY HEATING SERVICE (Continued)

RATE – MONTHLY (Continued)

(5) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

MINIMUM CHARGE EACH CONTRACT EACH LOCATION

The Customer Charge, not less than $108.00 per contract.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

TERM

The initial term of service shall be one year. Customers opting for this rate shall not be entitled to service at the same location under the Company’s Service Classification Nos. 1 or 5 until one year from the date of service or thereafter on the annual anniversary date upon 5 days’ prior written notice.

EXTENSION OF FACILITIES

Where service is supplied from an extension the charges thereon shall be determined as provided in General Information.

(Continued)
SPECIAL PROVISIONS

(A) Metering

The customer shall guarantee the Company access to the meter at all times. In the event the Company is unable to obtain the necessary meter readings, it shall estimate the consumption based on all the data available and apply the rates as specified in RATE – MONTHLY.

(B) Approved Water Heater

An approved electric water heater is one that has a minimum storage capacity of 40 gallons and two heating elements with the upper and lower elements so interlocked that they may not operate simultaneously. The size of the elements shall not exceed those listed in the tabulation below:

</table>

The 40 gallons heater is restricted to use in mobile homes and individual apartments.

(C) Budget Billing

Not available under this Service Classification.
SERVIC CLASSIFICATION NO. 4
PUBLIC STREET LIGHTING SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company’s Retail Access Program for the purpose of lighting the streets, highways, roadways and ways open to public use where required by City, Town, County, State, or other Municipal or Public Agency or by an incorporated association of local residents in the State of New Jersey.

CHARACTER OF SERVICE

Service supplied hereunder shall be for limited period, dusk-to-dawn illumination, photoelectrically controlled, approximately 4,100 hours per year, approximately 60 cycle and at appropriate voltages or currents designated by the Company.

The Company shall own, maintain and operate all facilities used to supply service hereunder except where noted. Locations of Company owned luminaires that are to be attached to Company facilities shall be determined in consultation with the customer, but shall be approved at the sole reasonable discretion of the Company.

A customer may designate the following types of service:

1. **Standard Overhead Service**
   Luminaires will be mounted on wood poles with the appropriate bracket using the Company’s existing overhead distribution system.

2. **Underground Service**
   This service is only available where the Company has an existing underground distribution system or is in the process of constructing one. Luminaires will be mounted on poles of a type specified in the Company’s most current standard for lighting poles for use in underground distribution systems.

(Continued)
SERVICE CLASSIFICATION NO. 4
PUBLIC STREET LIGHTING SERVICE (Continued)

APPLICATION FOR SERVICE

The Company shall require a written application for additional service, after the effective date of this tariff sheet, to include a list of the quantity and type of luminaires to be supplied.

Such application when accepted by the Company, shall constitute an agreement between customer and Company, subject to the terms and conditions set forth in this Service Classification.

TERM

The Initial Term of service shall be five years. Service shall continue in effect thereafter until canceled by either party upon ninety days written notice. The Company shall require an Initial Term of five years for each additional installation.

DETERMINATION OF BILLING QUANTITIES

The charge for lighting service hereunder during each calendar month shall be based upon the number of luminaires in service as of the first day of that calendar month.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

(b) **Transmission Charges**

A Transmission Charge of 1.223 ¢ per kWh will apply to all customers taking Basic Generation Service from the Company. Transmission charges are also applicable to customers located in the Company's Central and Western Divisions and obtaining Competitive Energy Supply. Transmission charges are not applicable to customers located in the Company's Eastern Division and obtaining Competitive Energy Supply. The Company's Eastern, Central and Western Divisions are defined in General Information Section No. 1. A Transmission Surcharge, to recover Reliability Must Run Charges, of 0.000 ¢ per kWh will also apply to all customers taking Basic Generation Service from the Company.

Transmission Charges shall be applied to the kWh estimate in the following manner:

\[
\text{kWh} = \frac{\text{Total Wattage divided by 1,000}}{\text{times Monthly Burn Hours}}^* \\

^* \text{See Monthly Burn Hours Table}

(Continued)
SERVICE CLASSIFICATION NO. 4
PUBLIC STREET LIGHTING SERVICE (Continued)

RATE – MONTHLY (Continued)

(2) **Additional Charge**

(a) An additional $20.40 per luminaire per month will be charged for existing Underground Service where the Company owns and maintains the entire facilities.

(b) An additional $4.96 per luminaire per month will be charged for existing underground service where the customer has installed, owns and maintains the duct system complete, but not the aluminum standard or luminaire.

(c) An additional $0.55 per bracket per month will be charged for a fifteen foot bracket when installed.

(3) **Societal Benefits Charge, Regional Greenhouse Gas Initiative Surcharge, Securitization Charges, Temporary Tax Act Credit, and Zero Emission Certificate Recovery Charge.**

The provisions of the Company’s Societal Benefits Charge, Regional Greenhouse Gas Initiative Surcharge, Securitization Charges, Temporary Tax Act Credit, and Zero Emission Certificate Recovery Charge as described in General Information Section Nos. 33, 34, 35, 36, and 37 respectively shall be assessed on all kWh delivered hereunder.

The charges shall be applied to the kWh estimate in the following manner:

\[
\text{kWh} = \left( \frac{\text{Total Wattage}}{1,000} \right) \times \text{Monthly Burn Hours}^* 
\]

* See Monthly Burn Hours Table.

(Continued)
SERVICES

SERVICE CLASSIFICATION NO. 4
PUBLIC STREET LIGHTING SERVICE (Continued)

RATE – MONTHLY (Continued)

(4) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

The Basic Generation Service charge applies to the kWh estimate in the following manner:

\[ \text{kWh} = \left( \frac{\text{Total Wattage}}{1,000} \right) \times \text{Monthly Burn Hours} \]

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

Taxes apply to the kWh estimate in the following manner:

\[ \text{kWh} = \left( \frac{\text{Total wattage}}{1,000} \right) \times \text{Monthly Burn Hours} \]

MINIMUM CHARGE PER LUMINAIRE

The Minimum Charge Per Luminaire shall be the monthly charge as specified in RATE – MONTHLY, Parts (1) and (2) times sixty months (five years). Should the monthly charge change during the Initial Term, the Minimum Charge Per Luminaire shall be prorated accordingly.

* See Monthly Burn Hours Table
SPECIAL PROVISIONS

(A) Charges to customers under revised or superseding Service Classification shall commence with the first day of billing period following effective date of such revised or superseding Service Classifications.

(B) Service to customer owned lighting facilities shall not be made under this Service Classification except for existing underground services where the customer has installed, owns and maintains the duct system complete, but not the aluminum standards or luminaires.

(C) A customer may apply for service hereunder for a proposed residential subdivision in which all electric facilities will be underground. Such application shall be signed by the customer and Builder or Developer and when accepted by the Company, shall constitute an agreement between the Company, customer and Builder or Developer subject to the terms and provisions hereunder. The Builder or Developer shall pay to the Company prior to the commencement of any construction all costs associated with the installation of the facilities to be serviced hereunder as described in General Information Section No. 17 and a prepayment of six times the total monthly charge for all luminaires installed. Said monthly charges shall be determined using the rates in effect at the time said costs and charges are determined. The Company shall not bill the customer for the first six months of service of the facilities installed under this provision.

(D) The customer shall furnish the Company with all easements or rights-of-way necessary to provide service to the desired location before any installation or construction will be started.

(E) The Company shall not be obligated to repair or replace in kind any obsolete luminaire for which it cannot reasonably obtain the necessary parts. The Company will remove the obsolete luminaire or, at the customer's request, replace it with any luminaire offered for service at that time for which the customer will be charged the appropriate rates.
SERVICE CLASSIFICATION NO. 4
PUBLIC STREET LIGHTING SERVICE (Continued)

SPECIAL PROVISIONS (Continued)

(F) Upon not less than 30 days prior written notice to the Company, the customer may require that the lighting of any luminaire or luminaires be discontinued. The Company shall have the right to remove all facilities serving such luminaires. For each luminaire removed prior to five years of service the customer shall pay the difference between the Minimum Charge Per Luminaire and the amount actually paid pursuant to the applicable monthly charge specified in RATE – MONTHLY, Parts (1) and (2).

(G) The Company shall have the right to remove any Company owned equipment, or to discontinue service to customer owned equipment, which in the opinion of the Company shall have become unsatisfactory for further service by reason of deterioration, civil commotion, state of war, explosion, fire, storm, flood, lightning, or any other cause reasonably beyond the Company's control. Replacement shall be limited to equipment considered appropriate by the Company at the date of re-installation.

(H) Upon termination of service hereunder the Company shall have the right within a reasonable time thereafter to remove all facilities placed, installed or used by it pursuant to the service hereunder.

Upon making such removal, the Company shall leave the public streets and places affected thereby in the same or as good condition as they were immediately thereto.

(I) If the Company is suitably notified of a lamp outage it will endeavor to restore service within 2 nights of said notice.

Should the Company be unable to restore service within 2 nights it shall make an allowance to the customer’s bill as follows:

Total Applicable Nights = Total Outage Nights minus 2 Nights

Allowance = \( \frac{\text{Total Applicable Nights} \times \text{Total Monthly Charge}}{\text{Total Nights in the Billing Period}} \)

Applicable kWh = \( \frac{\text{Total Applicable Nights} \times \text{Monthly Burn Hours} \times \text{Total Wattage}}{\text{Total Nights in the Billing Period} \times 1,000} \)

Where the customer owns and is responsible for the maintenance of its Street Lighting system, no credit will be given for outages caused by defective customer equipment.

(Continued)
SPECIAL PROVISIONS (Continued)

(J) As a condition of receiving service hereunder, the customer authorizes the Company, insofar as it lawfully may, to trim, cut, remove and to keep trimmed, cut and removed any trees and all other obstructions which, in the opinion of the Company, interfere with or may tend to interfere with the construction, operation and maintenance of the Company's service hereunder. Tree trimming required for light distribution on the highway, street and/or sidewalk surfaces is the responsibility of the customer, and shall be done by the customer or at the customer’s expense.

(K) The Company shall not be required to replace more than two (2%) percent of the luminaires in any lighting district in any one year with one of a different type or design unless the customer shall pay to the Company a replacement charge for the excess based on the net book value of the facilities to be replaced. The net book value is defined as the original cost of the facility to be replaced less the accrued book depreciation on such facility at the time of replacement. Replacement is defined as renewed service at the same location by the same customer within one year of termination.
SERVICE CLASSIFICATION NO. 5  
RESIDENTIAL SPACE HEATING SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to residential customers, where electricity is a source of space heating subject to the conditions specified in "Special Provisions". All service at each residence shall be taken through one meter.

CHARACTER OF SERVICE

Continuous, 60 cycle, A.C., from any of the following systems as designated by the Company:

(1) Single phase at approximately 120,120/208 or 120/240 volts.

(2) Three phase four wire at approximately 120/208 volts in limited areas.

* Definition of Summer Billing Months - June through September

---

ISSUED: August 25, 2020
ISSUED BY: Robert Sanchez, President
Mahwah, New Jersey 07430

EFFECTIVE: September 1, 2020

Filed pursuant to Orders of the Board of Public Utilities, State of New Jersey, dated August 12, 2020 in Docket Nos. ER20030263 and ER20060446.
SERVICE CLASSIFICATION NO. 5
RESIDENTIAL SPACE HEATING SERVICE (Continued)

RATE – MONTHLY (Continued)

(5) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

MINIMUM CHARGE EACH CONTRACT EACH LOCATION

$5.41 monthly, not less than $32.46 per contract.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

TERM

Terminable at any time unless a specified period is required under a line extension agreement.

EXTENSION OF FACILITIES

Where service is supplied from an extension the charges thereon shall be determined as provided in General Information.

(Continued)
SPECIAL PROVISIONS

(A) **Resistance Heating Equipment**

No new residential customers with electric resistance space heating equipment will be provided hereunder unless one of the following conditions is met:

(a) The electric resistance heating equipment is supplementary to a heat pump system, energy storage system, or a system for which a renewable resource is the primary energy input;

(b) The customer established that heat requirements will be seasonal in nature and thus electric resistance is the most economic heat source for the customer.

(B) **Religious Houses of Worship**

Service will also be furnished to a religious house of worship and adjacent buildings (other than school buildings which substitute for public education), owned by the customer and operated in connection therewith, provided, however, that if the buildings of any such customer are separated by a highway or highways, then the electricity delivered to each so separated shall not be combined with the electricity delivered to other buildings but shall be billed separately under rates as specified in the applicable service classification.

(C) **Short Term Service**

Customers desiring service under this schedule for less than six months, where service is already installed, shall pay in advance the contract minimum as specified under "Minimum Charge Each Contract Each Location" or under an applicable line extension agreement, or, if the estimated bill for two months or such shorter period as service may be desired exceeds the contract minimum, the Company reserves the right to request a deposit equal to this estimated bill. A part of a month shall be considered a full month for computing all charges hereunder.

(D) **Budget Billing Plan**

Any customer taking service hereunder may, upon request, be billed monthly in accordance with the budget billing plan as provided for in General Information Section 8 of this tariff.
SERVICE CLASSIFICATION NO. 6
PRIVATE OVERHEAD LIGHTING SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company’s Retail Access Program for outdoor lighting of areas, beyond the limits of public streets, highways or roadways, for use of individuals and private or public organizations where existing distribution facilities are suitable for the service requested.

CHARACTER OF SERVICE

Service supplied hereunder shall be for limited period, dusk-to-dawn illumination, photoelectrically controlled, approximately 4,100 hours per year, approximately 60 cycle and at appropriate voltages or currents designated by the Company except as provided for under Service Type C, Energy Only Service.

The Company shall own, maintain and operate all facilities used to supply service hereunder except where noted.

A customer may elect either of the following types of service:

(A) Overhead Service

Luminaires will be mounted on wood poles with the appropriate bracket using the Company’s existing distribution facilities. (See Special Provisions A and B)

(B) Underground Service

Luminaires will be mounted on poles of a type specified in the Company's most current standard for lighting poles for use in underground distribution systems. This service is only available, where the Company has an existing underground distribution system or is in the process of constructing one, for the purpose of lighting streets or roadways in developments where such streets or roadways will not be dedicated to a municipal authority. Customer shall pay to the Company the installed cost of all facilities required except for the bracket, luminaire and photo-electric control, prior to the commencement of construction of such facilities.

(Continued)
CHARACTER OF SERVICE (Continued)

(C) Energy Only Service

Energy will be supplied to customers who have installed, own and will maintain all facilities necessary to provide outdoor lighting. Customer’s lighting facilities shall not be mounted on Company owned facilities.

Service taken hereunder shall be measured by meters furnished, installed and maintained by the Company. The customer may request unmetered service for installations controlled by photoelectric devices of a type approved by the Company that will provide for approximately 4,100 hours of lighting per year. Customers taking unmetered service shall provide the Company advance notice in writing of any change in lighting equipment or in use of service supplied on an unmetered basis. The Company reserves the right at any time to meter service previously supplied on an unmetered basis. Service shall be continuous, 60 cycles, A.C. single or three phase secondary, if available, at approximately 120/208 Volts or 120/240 Volts.

SERVICE CLASSIFICATION NO. 6
PRIVATE OVERHEAD LIGHTING SERVICE (Continued)

RATE – MONTHLY (Continued)

(1) Distribution and Transmission Charges (Continued)

(b) Distribution Charges for Service Type C

- Metered Service -
  Customer Charge at $14.00 per month plus Distribution Charge at 5.725¢ per kWh; or

- Unmetered Service -
  Customer Charge at $3.00 per month plus Distribution Charge at 5.725¢ per kWh.

(c) Transmission Charges for Service Types A, B, and C

A Transmission Charge of 1.223¢ per kWh will apply to all customers taking Basic Generation Service from the Company. Transmission charges are also applicable to customers located in the Company’s Central and Western Divisions and obtaining Competitive Energy Supply. Transmission charges are not applicable to customers located in the Company’s Eastern Division and obtaining Competitive Energy Supply. The Company’s Eastern, Central and Western Divisions are defined in General Information Section No. 1. A Transmission Surcharge, to recover Reliability Must Run Charges, of 0.000¢ per kWh will also apply to all customers taking Basic Generation Service from the Company.

For service type A, B, or C if not metered, the charges shall be applied to the kWh estimated as follows:

\[ kWh = \frac{(Total\ Wattage\ divided\ by\ 1,000)}{times\ Monthly\ Burn\ Hours^*} \]

The provisions of the Company’s Societal Benefits Charge, Regional Greenhouse Gas Initiative Surcharge, Securitization Charges, Temporary Tax Act Credit, and Zero Emission Certificate Recovery Charge as described in General Information Section Nos. 33, 34, 35, 36, and 37 respectively shall be assessed on all kWh delivered hereunder. For service type A, B, or C if not metered, the charges shall be applied to the kWh estimated as follows:

\[ kWh = \frac{(Total\ Wattage\ divided\ by\ 1,000)}{times\ Monthly\ Burn\ Hours^*} \]

* See Monthly Burn Hours Table. (Continued)
(3) Basic Generation Service

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31. For service type A, B, or C if not metered, the Basic Generation Service charge shall be applied to the kWh estimated as follows:

\[ 	ext{kWh} = \frac{\text{Total Wattage}}{1,000} \times \text{Monthly Burn Hours} \]

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

Taxes apply to the kWh estimate in the following manner:

\[ 	ext{kWh} = \frac{\text{Total wattage}}{1,000} \times \text{Monthly Burn Hours} \]

SERVICE CLASSIFICATION NO. 6
PRIVATE OVERHEAD LIGHTING SERVICE (Continued)

MINIMUM CHARGE

The minimum charge per luminaire for Service Type A or B shall be the sum of the monthly Distribution and Transmission Charges as specified in RATE – MONTHLY, Part (1a) times twelve. Should the monthly charge be revised during the initial term, the minimum charge per installation shall be prorated accordingly.

The minimum charge for Service Type C - Metered shall be $14.00 per month and not less than $168.00 for the initial term.

The minimum charge for Service Type C - Unmetered shall be $3.00 per month and not less than $36.00 for the initial term.

TERM

The Initial Term shall be one year. Service shall continue in effect thereafter until canceled by either party upon thirty days written notice. The Company shall require an Initial Term of one year for each luminaire for Service Types A or B.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.
SERVICE CLASSIFICATION NO. 6
PRIVATE OVERHEAD LIGHTING SERVICE (Continued)

SPECIAL PROVISIONS

Special Provisions A, B, D, E, F, and J apply only to Service Types A and B. Special Provision K applies only to Service Type C. Special Provisions C, G, H, and I apply to Service Types A, B, and C.

(A) Street lighting luminaires will normally be mounted on eight foot aluminum brackets. Fifteen foot brackets are available at an additional charge of $0.63 per bracket per month.

(B) Luminaires will be installed free of charge where all facilities necessary to serve a luminaire are present. Customer shall pay the cost of any additional facilities required, prior to the commencement of the construction of such facilities.

(C) The customer shall furnish the Company with all easements or rights-of-way necessary to provide service to the desired location before any installation or construction will be started.

(D) A customer may apply for service hereunder for a proposed residential subdivision in which all electric facilities will be underground. Such application shall be signed by the customer and builder or developer and when accepted by the Company, shall constitute an agreement between the Company, customer and builder or developer subject to the terms and provisions hereunder.

The builder or developer shall pay to the Company prior to the commencement of any construction all costs associated with the installation of the facilities to be serviced hereunder and shall prepay six times the total monthly charge for all luminaires installed. Said monthly charges shall be determined using the rates in effect at the time said costs and charges are determined. The Company shall not bill the customer for the first six months of service of the facilities installed under this special provision.

(E) The Company shall not be obligated to repair or replace in kind any obsolete luminaire for which it cannot reasonably obtain the necessary parts. The Company will remove the obsolete luminaire or at the customer's request, replace it with any luminaire offered for service at that time for which the customer will be charged the appropriate rates.
SPECIAL PROVISIONS (Continued)

(F) Upon not less than 30 days prior written notice to the Company, the customer may require that the lighting of any luminaire or luminaires be discontinued. The Company shall have the right to remove all facilities serving such luminaires. For each luminaire removed prior to one year of service the customer shall pay the difference between the Minimum Charge and the amount actually paid pursuant to the applicable monthly charge specified in RATE – MONTHLY, Part (1).

(G) The Company shall have the right to remove any Company owned equipment, or to discontinue service to customer owned equipment, which in the opinion of the Company shall have become unsatisfactory for further service by reason of deterioration, civil commotion, state of war, explosion, fire, storm, flood, lightning, or any other cause reasonably beyond the Company's control. Replacement shall be limited to equipment considered appropriate by the Company at the date of re-installation.

(H) Upon termination of service hereunder the Company shall have the right within a reasonable time thereafter to remove all facilities placed, installed or used by it pursuant to the service hereunder. Upon making such removal, the Company shall leave the places affected thereby in the same or as good condition as they were immediately thereto.

(I) As a condition of receiving service hereunder, the customer authorizes the Company, insofar as it lawfully may, to trim, cut, remove and to keep trimmed, cut and removed any trees and all other obstructions which, in the opinion of the Company interfere with or may tend to interfere with the construction, operation and maintenance of the Company’s service hereunder. Tree trimming required for proper light distribution shall be the responsibility of the customer and shall be done by the customer or at the customer's expense.
SPECIAL PROVISIONS (Continued)

(J) If the Company is suitably notified of a lamp outage it will endeavor to restore service within 2 nights of said notice. Should the Company be unable to restore service within 2 nights, it shall make an allowance to the customer’s bill as follows:

Total Applicable Nights = Total Outage Nights minus 2 Nights

Allowance = \[
\frac{\text{Total Applicable Nights} \times \text{Total Monthly Charge}}{\text{Total Nights in the Billing Period}}
\]

Applicable kWh = \[
\frac{\text{Total Applicable Nights} \times \text{Monthly Burn Hours} \times \text{Total Wattage}}{\text{Total Nights in the Billing Period} \times 1,000}
\]

(K) Customers taking Energy Only Service which will be controlled by photoelectric devices, shall provide to the Company, prior to installation of any luminaire, the manufacturer’s specifications for the luminaire and such other information the Company shall require in order to determine the electrical demands of the luminaires. Customers shall make no changes to the luminaires installed without providing thirty days’ written notice to the Company.
SERVICE CLASSIFICATION NO. 7
LARGE GENERAL TIME-OF-DAY SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to primary service customers who maintain a minimum demand of 1,000 kW during any two of the previous twelve months and provide all equipment required to take service at a primary voltage as designated by the Company. A primary customer who does not maintain a demand of at least 1,000 kW during any two of the previous twelve months, may, at the customer's option transfer to another Service Classification provided that such transfer shall only be made on an annual anniversary date that such customer began service hereunder.

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to high voltage distribution service customers with a minimum demand of 1,000 kW who provide all equipment required to take high voltage distribution service as designated by the Company. High voltage distribution service shall be made available at the sole discretion of the Company where conditions merit.

Customers with generators that meet the definition of distributed generation as defined in N.J.S.A. 48:2-21.37 shall be subject to the provisions of Service Classification Rider – Standby Service.

All service at one location shall be taken through one meter except that service taken under Special Provision A shall be separately metered.

CHARACTER OF SERVICE

Continuous, 60 cycles, A.C., single or three phase primary or high voltage distribution service as defined in General Information Section 26 and depending on the magnitude and characteristics of the load and the circuit from which service is supplied.

DEFINITION OF RATING PERIODS

Period I - 10:00 a.m. to 10:00 p.m. prevailing time, Monday through Friday except holidays, June through September.

Period II - 10:00 p.m. to 10:00 a.m. prevailing time, Monday through Friday and all hours on Saturday, Sunday and holidays, June through September.

Period III - 10:00 a.m. to 10:00 p.m. prevailing time, Monday through Friday except holidays, October through May.

Period IV - 10:00 p.m. to 10:00 a.m. prevailing time, Monday through Friday, all hours on Saturday, Sunday and holidays, October through May.

For the purposes of this section holidays are: New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

DETERMINATION OF DEMAND

The billing demand, for each of the rating periods above, shall be defined as the highest 15-minute integrated kW demand determined during each rating period by the use of a suitable demand indicator, but not less than 90% of the kVA demand.

TERMS OF PAYMENT

Bills are due in accordance with General Information Section No. 10.

TERM

The initial term shall be one year unless the Company requires a longer initial term where special construction is required to furnish service. Thereafter, service is terminable upon ninety days written notice.

Termination by the customer followed by renewed service at the same location under another service classification will only be permitted on the anniversary of the date service commenced hereunder.

SERVICE CLASSIFICATION NO. 7
LARGE GENERAL TIME-OF-DAY SERVICE (Continued)

SPECIAL PROVISIONS

(A) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of 3.520 ¢ per kWh during the billing months of October through May and 5.691 ¢ per kWh during the summer billing months, a Transmission Charge of 0.404 ¢ per kWh and a Transmission Surcharge of 0.475 ¢ per kWh during all billing months. The applicability of Transmission Charges and the Transmission Surcharge is described in Part (3) of RATE – MONTHLY.

When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of $26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (4), (5), and (6) of RATE – MONTHLY. This Special Provision is not available to those customers taking high voltage distribution service.

This special provision is closed to new customers effective August 1, 2014.

(B) Budget Billing Plan

Any condominium association or cooperative housing corporation who takes service hereunder and any other customer taking service under Special Provision B of this Service Classification may, upon request, be billed monthly in accordance with the budget billing plan provided for in General Information Section 8 of this tariff.
